## Vaccine Controls Accepted

Manufacturers Give Consent to Federal Standards; Ready To Resume Output

WASHINGTON (AP)—Three manufacturers of Salk vaccine today declared readiness to go along with the government's new production and testing standards.

An overnight shift from the doubts with which the makers first heard the proposals was apparently underway. Resolution of the differences would open the way for release of more vaccine and early resumption of the all but suspended mass inoculation program against polio.

The stand by companies at a luncheon break in a series of meetings with government officials in which differences were being threshed over:

Eli Lilly & Co., Indianapolis; Wyeth Laboratories, Marietta, Pa., and Sharpe & Dohme, Philadelphia, ready to accept the new standards.

Pitman - Moore Co., Zionville, Ind., opposed to them.

Parke, Davis & Co., Detroit, giving no indication of a change from the initial view of its officials that they were not entirely satisfactory.

Cutter Laboratories, Berkeley, Calif., not taking public stand.

The exact nature of the government proposals has not been disclosed but the comments of various of the manufacturers made it plain that the practical effect would not be the same as to all companies, perhaps because of differences in size and operating methods.

The panel, which includes such top polio scientists as Dr. Jonas E. Salk, developer of the vaccine, was given broad powers in connection with clearance of vaccine.

It also will undertake "continuing review of the manufacturing processes, review testing procedures both by the manufacturers and by the National Institutes of Health, (and) evaluate plant inspections by the National Institutes of Health."

Surgeon General Leonard Scheele announced the appointment of the panel yesterday and also the establishment of new testing standards. He said, "we are now ready to move ahead," meaning to resume quickly the nationwide polio inoculation program.

## National Guard Units All Passed Inspection During Annual Rating

JEFFERSON CITY (AP)—Missouri's adjutant general reported today the state's National Guard units all passed muster in the annual army inspection.

Four units were rated as "superior," 79 were graded "excellent" and the other 21 came through with "satisfactory" scores, said Maj. Gen. A. D. Sheppard.

The four top units were:

Detachment A Headquarters 35th Infantry Division, Kansas City; Service Battery 129th Field Artillery, Lexington; Battery B 129th Field Artillery, Albany, and Medical Detachment 135th Tank Battalion, Camp Clark, Nevada.

## Boonville Prisoner Convences 2 Others Against Escaping

BOONVILLE (AP)—A prisoner in the Cooper County jail talked two others out of trying to break jail last night, Sheriff Lyburn Mann said today.

He said James Otto Brown who is serving a sentence for common assault convinced William Merrick, Charter Oak, Mo., and J. C. Bilderback, Lebanon, that the attempt wasn't worth the penalties they would receive.

## For Some It Was Bad

That rainstorm sneaked up on Sedalia fast this morning, then hopped over to Tipton and Syracuse to play marbles with a couple of barns. But we were untouched compared to Oklahoma and Kansas.

Showers and occasional thunderstorms tonight and Friday. High Friday in 70s. Low tonight near 60.

The temperature at 7 a.m. was 61, 75 at 1 p.m. and 76 at 2 p.m. Rainfall from 1 p.m. Wednesday to 1 p.m. Thursday .43 inch.

The temperature one year ago today high 74, low 56, with .45 inch of moisture; two years ago, high 93, low 71; and three years ago, high 82, low 54.

Stage at Lake of the Ozarks \$3.00 rise .2.

## The Democrat-Capital Will Observe Holiday

The Sedalia Democrat will not be published Memorial Day, and The Capital will not be published Tuesday morning. The business office will be closed Memorial Day.

All display advertising copy for Tuesday should be in the office by 3 p.m. Saturday.

Classified advertising, as usual, will be accepted up to 10 a.m. Tuesday for that day.

## Lashing Wind Batters Barns, Causing Loss

### Tipton and Syracuse Center of Twisters; Rains Drench Area

A small twister smashed a cattle shed and jolted a granary from its foundation on the Loy Allee farm three miles northeast of Tipton about 9:45 Friday morning, and a falling tree limb "knocked out" all long distance telephone communications at the Tipton Union Telephone Co. exchange.

The twister apparently skirted other farms in the area. No other damage was reported. Heavy rains drenched the immediate area and as far south as Stover and a four county area of Pettis, Cooper, Morgan and Moniteau.

Southwestern Bell Telephone maintenance crews restored the long distance service with Tipton in less than hours after the lines were down.

Another small twister struck four miles south of Syracuse at the same time. Heavy rains accompanied the strong winds.

A shed barn of native lumber, 12 by 32 feet on the Douglas Peoples' farm was blown down and a portion of the roof was carried 100 yards. The 20 hens which were in the barn remained unharmed. Several other small buildings on the farm were also blown down.

The glass panel in the front door of the home was blown out and a large mulberry tree on the south side of the home was uprooted and fell against the house. A large limb off a walnut tree hit the top of the car and broke the windshield.

Mrs. Peoples was in the car rolling up the windows at the time the limb hit the car. She was not injured.

The tops of four large trees at the home of his brother, Arthur Peoples, a half-mile away, were twisted off and several windows in the home were broken out.

The Missouri House quit work for the week yesterday without trying to revive the bill, which fell six votes short of passage a week ago.

The House comes back to the Capitol Monday at 2 p.m. and the Senate two hours later. They must finish all their work by midnight Tuesday, May 31, when the 1955 Legislature ends automatically.

Even if it passed the House in its present form, the bill would face a fight in the Senate over a House amendment. The change tacked on by Rep. Christian F. Stipp (R) of Carrollton, would earmark half of the sales tax for school aid and a fourth for old age assistance.

The dilemma of the sales tax sponsors is this:

They need about \$22 million a year in new revenue to finance a proposed "foundation program" for education. That plan goes before the voters as a referendum proposal Oct. 4.

But the way Stipp's amendment reads, the earmarking would apply to all of the sales tax—the entire 2½ per cent, not just the extra one-half per cent.

The State Budget Office estimates, conservatively, that such a plan would produce about \$83 million a year for school aid, or \$16 million more than needed to finance the foundation program in full.

Should the sales tax sponsors try to remove the Stipp amendment and pass the bill? Or should they leave it on and let the problem go to the Senate, which has opposed earmarking previously?

## Soviets Accept Invitation For Big Four Meet

### They Charge US With Planning The Doom of Big Talks

MOSCOW (AP)—The Soviet Union formally accepted today an invitation to take part in a Big Four parley at the summit. At the same time it charged the United States was setting up pre-conditions "which will doom the conference to failure."

"There is only one explanation," the Soviet Union said in notes to the United States, Britain and France, "namely that the government of the U.S.A. contrary to its declaration does not desire to settle acute international problems."

The note specifically referred to statements made in Washington concerning relations with the Communist people's democracies in Eastern Europe.

It declared that any attempt to discuss the situation in those countries would be completely inadmissible.

It also said the United States planned to enter the proposed conference with a policy based on "points of strength."

The note said "all that is being done despite the fact that the futility of such attempts in negotiating with the Soviet Union has been shown in the past."

In an unprecedented step, the Soviet Union included a separate section of its notes to Britain and France which did not appear in the note to the United States. These sections were scarcely veiled appeals for France and Britain to support the views of the Soviet Union against those of the United States.

The Soviet government believes France and Great Britain hardly agree that the above mentioned declarations of leading officials of the United States contribute to an appropriate atmosphere for a conference of four powers," it said.

Moberly Man Killed When Tornado Wrecks Barn Used As Refuge

MOBERLY, Mo. (AP)—One man was killed today when a tornado wrecked a barn in which he had taken refuge from a wind and rain storm.

The victim was Ben Heckart, 67, a farmer living 10 miles east of Paris, Mo. He had just driven his team and wagon into the barn when the twister struck.

The tornado was one of several which hit Central Missouri today in the wake of heavy rains.

A small twister hit the Warren Hill farm, southeast of Salisbury, causing considerable damage. A machine shed was collapsed, the roof taken off the barn and a garage moved off its foundation.

Hill and a neighbor were in the machine shed at the time, but they escaped with minor injuries.

A high wind hit the Brookfield area, knocking out an REA line east of the city.

Carthage had a windstorm which felled tree branches and knocked out utility lines. One telephone cable was severed by a falling tree. The blow was accompanied by .54 of an inch of rain and scattered hail.

Diesel Blasts Ended At Crossing By Bill

JEFFERSON CITY (AP)—Those blasting horns of diesel locomotives are going to be legal in Missouri under a bill signed today by Gov. Phil M. Donnelly.

The old law, passed years ago, required locomotives to sound their whistles at every crossing. That was all right until the old steam engines were replaced by diesels. And diesels don't whistle—they blot.

Also signed was a bill increasing salaries of employees in the office of the St. Louis prosecuting attorney.

The temperature one year ago today high 74, low 56, with .45 inch of moisture; two years ago, high 93, low 71; and three years ago, high 82, low 54.

Stage at Lake of the Ozarks \$3.00 rise .2.

## Poppies Will Be Sold Here Friday, Saturday By Legion Auxiliary

Memorial Day Poppies will go on sale in Sedalia Friday and Saturday, May 27 and 28.

They will be sold by the American Legion Auxiliary and boys and girls. Mrs. James Franks, 1309 West Fourth, is president of Legion Post 16 Auxiliary. Mrs. Glenn Lewis, Mrs. R. R. Conn, Mrs. W. C. Cain and Mrs. George Chambers will furnish transportation for the girls and boys selling poppies in suburban Sedalia.

Mrs. Frank, Mrs. Tom Soter and Mrs. Russell Conn will serve lunch to the boys and girls at the Legion Hall. Poppy headquarters will be in the courthouse lobby.

The American Legion adopted the poppy as its memorial flower at the national convention in September, 1920. The auxiliary also adopted the poppy in Kansas City, October, 1921. At that time the auxiliary pledged the profits from poppy sales to welfare relief for service men and their families.

## Time Runs Out On Tax; House Quits

JEFFERSON CITY (AP)—Time has almost run out for the proposal to raise \$24 million more revenue a year by increasing the state sales tax from two to two and a half per cent.

The Missouri House quit work for the week yesterday without trying to revive the bill, which fell six votes short of passage a week ago.

The House comes back to the Capitol Monday at 2 p.m. and the Senate two hours later. They must finish all their work by midnight Tuesday, May 31, when the 1955 Legislature ends automatically.

Even if it passed the House in its present form, the bill would face a fight in the Senate over a House amendment. The change tacked on by Rep. Christian F. Stipp (R) of Carrollton, would earmark half of the sales tax for school aid and a fourth for old age assistance.

The note said today that Mrs. Hobby had presented her resignation and that it was understood President Eisenhower had accepted. The newspaper said Bradshaw Minter, now assistant secretary, had been selected to succeed her. Minter said he had not heard of such a move.

The New York Herald Tribune said today that Mrs. Hobby had presented her resignation and that it was understood President Eisenhower had accepted. The newspaper said Bradshaw Minter, now assistant secretary, had been selected to succeed her. Minter said he had not heard of such a move.

The New York Herald Tribune said today that Mrs. Hobby had presented her resignation and that it was understood President Eisenhower had accepted. The newspaper said Bradshaw Minter, now assistant secretary, had been selected to succeed her. Minter said he had not heard of such a move.

The New York Daily News in a copyrighted story, also from Washington, reported that Clare Boothe Luce is flying to Washington from her post as ambassador in Rome to take over as Mrs. Hobby's successor. Mrs. Luce in Rome denied that story.

Ike Asks Fund Grant For Atomic Vessel Previously Suggested

WASHINGTON (AP)—President Eisenhower today asked Congress for \$12,650,000 to start construction of the world's first atomic powered merchant ship.

Eisenhower first disclosed plans for building such a ship in a New York speech on April 25. At that time he told the annual luncheon of The Associated Press that the vessel would be sent on a dramatic

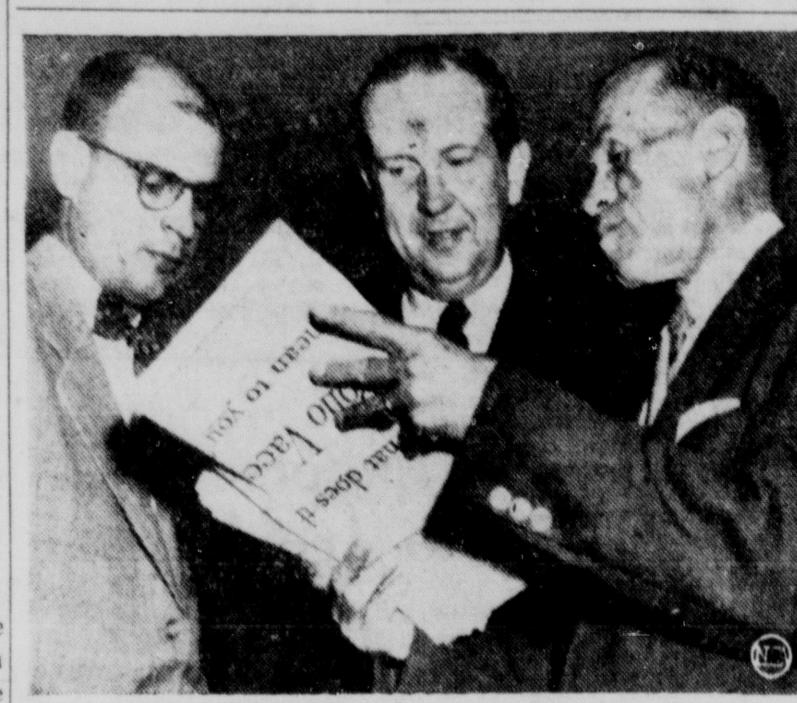

around the world cruise to demonstrate America's determination to harness atomic power for peaceful purposes.

Since then, the proposal has run into criticism from some Congress members. Chairman Bonner (D-N.C.) of the House Merchant Marine Committee said the vessel projected by Eisenhower would be some sort of "carnival of Mississippi River showboat." Both he and others suggested building a "practical" atomic powered ship that would carry freight.

Eisenhower's request today for funds to start construction was included in an overall request for \$139,334,014 for additional appropriations for the fiscal year starting July 1.

MISSED RECORD, BUT WON FIGHT—Oklahoma State Senator Kirsix Nix of McAlester ended a ten-hour 23-minute filibuster in the Oklahoma Senate in Oklahoma City by winning his fight against the feed-seed sales tax exemption bill. Nix had threatened to equal the recent 28-hour, 15-minute record set by a Texas legislator if necessary. The weary Senator at left is Jess Frontenac of Miami, Oklahoma.

## Tornadoes Claim 94 Lives And Leave Over 700 Injured

### Vaccine Control Hearings Started

The House Committee began hearings on legislation calling for Federal controls on Salk vaccine and called Surgeon General Leonard A. Scheele and other top officials of the U. S. Public Health Service to testify. Shown conferring prior to the hearing's start are, left to right, Roswell B. Perkins, Assistant Secretary of Health, Education and Welfare, and Chairman Percy Priest of Tennessee.

## Group Wants Sales Tax For More Revenue

ST. LOUIS — The Missouri Public Expenditure Survey says the state's additional revenue needs can best be met by a half-cent sales tax boost.

But the organization's board of trustees also pointed out the income should not be earmarked for a specific purpose because it said other state services would be left without enough money and more tax increases would then be needed later.

The trustees, at their spring meeting yesterday, said the chief need at present is for state school aid but revenues will be needed to finance appropriations voted for other services.

Arthur V. Burrows of St. Joseph is president of the survey and R. E. Blake of St. Louis heads the organization's executive committee.

The board also approved a program for the coming year calling for a balanced budget on the federal level and support for sound recommendations of the second Hoover Commission and the Commission on Intergovernmental Relations.

The survey said the sales tax and a tax on cigarettes can best meet the state's needs because they are "broadly based taxes which produce needed revenues without unduly burdensome increases in rates."

A recently defeated proposal to raise the income tax could not have produced the needed money, the survey said, without extreme increases in rates.

The survey's state-level program calls for improved control of expenditures; improved laws governing the welfare programs; continued efforts to eliminate duplication of local government functions and support for sound recommendations of the state's "Little Hoover" Commission.

## US Communists Are Convicted In Denver Court

DENVER — Seven persons named in federal indictments as Communist party leaders were convicted last night on charges of conspiring to teach violent overthrow of the government.

A jury of seven men and five women deliberated 12 hours and 13 minutes in the 29th actual trial day of the case. It began March 21.

Defense lawyers immediately asked time to file motions for dismissal and retrial. U. S. Dist. Judge Jean S. Breitenstein granted them until June 9 to prepare motions and set June 15 as a date for their hearing.

Breitenstein also granted a defense request that the defendants, four men and three women, remain free on bonds totaling \$100,000.

They face possible maximum sentences of five years' imprisonment and \$10,000 fines each under terms of the Smith Act, under which all were charged in federal indictments returned Aug. 9, 1954.

The accused are Arthur Bary, 43, and his wife Anna, 30, and Harold Zepelin, 29, all of Denver; Joseph Scherer, 35 and his wife Maia, 36, of Pueblo, Colo.; Mrs. Patricia Blau, 43, of Los Angeles, and Lewis M. Johnson, 34, of Salt Lake City.

All but Mrs. Blau, who was apprehended at her Los Angeles home, were arrested in Colorado last August by the FBI.

**Only Speed Counts**  
PORTLAND, Ore. — Russell Graham, 43, appeared in Municipal Court on a speeding charge and presented an instrument survey taken on his auto's speedometer to Traffic Judge Philip Bagley. It showed at 36 miles an hour his speedometer registered only 27.

"I'd hate to think of all the people who would get out of paying fines if we recognized faulty speedometers," said the judge in fining Graham \$14.

## Hindus Stop Monkey Exports Cause Snag In Polio Vaccine

By Ward Cannel

NEW YORK — (NEA) — High in the order of problems that stand between mankind and the successful use of the Salk polio vaccine is the Rhesus monkey.

For while each new day brings its new crisis in laboratory tests, commercial production of the wonder serum is seriously threatened — and so, too, is the immunization of the nation's children.

The threat is not in scientific process, or in lack of funds or in labor-management troubles. But, strangely, this modern medical emergency stands between two ancient points of view: East and West.

The Salk serum is almost wholly dependent upon the Rhesus monkey for production. And the Rhesus monkey is an import from India. But the Hindus, who hold this animal sacred, have stopped the vital shipments of monkeys.

Reason: Before the serum can be made, the monkey must be killed and dissected — a Western discovery that comes up against an Eastern religious tenet.

According to experts at the National Foundation For Infantile Paralysis, there is no immediate way out of this corner. In the words of one research executive:

"If we are to have Salk serum most economically, we need Rhesus monkeys."

It works this way:

Poliomyelitis is caused by a virus. And like all viruses, it needs living tissue for growth. The Salk serum itself is made from polio viruses which must be grown under aseptic laboratory conditions in living tissue until they reach an effective strength.

It had been known for years that certain types of monkeys were susceptible to polio in much the same way as humans. The chimpanzee, the cynomolgus, the Rhesus all proved satisfactory — monkeys that came from Africa, India, Malaya, the Philippines.

And so, scientists at work on polio research imported monkeys by the boatload and planeload.

Last year and the year before, 70,000 of these chattering, mimicking, peanut eating primates were imported.

The monkeys that went to polio experiments were taken by the National Foundation, kept under quarantine to separate the healthy from the sick, and sent to researchers at about \$35 each.

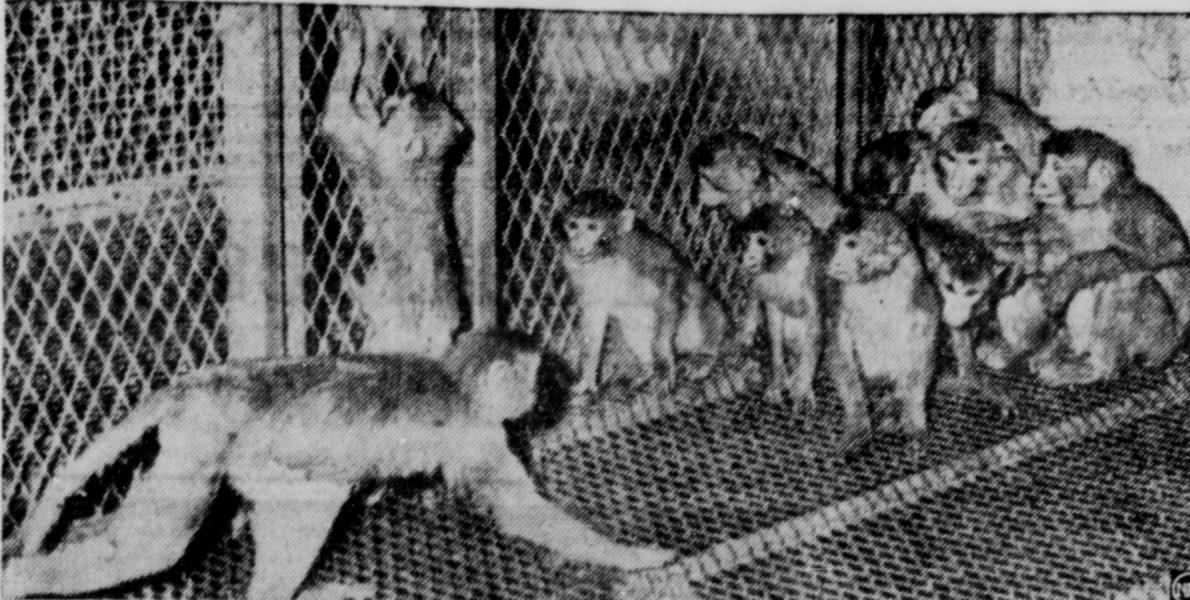

It was the Rhesus monkey, finally, that proved to be the best suited to serum production and tests. Not only did this animal react like a human to the disease, but his tissues allowed the virus to multiply at the highest concentration without introducing other factors.

Experiments showed that the monkey's kidneys were the most fertile ground for the growing of virus for vaccine. In this animal that stands the size of a cocker spaniel, the kidneys are no larger than a man's thumb. And after process and incubation — after whole batches are discarded for imperfections — science can expect only an average of 3,000 cubic centimeters of vaccine from each monkey.

That works out to be dose enough for 1000 children. And statistics show that 4,000,000 babies are born each year, which means a need for almost two million monkeys.

Is there a way out?

The experts say no for the present. A colony of monkeys was set up off Puerto Rico some time ago

THESE ARE RHESUS MONKEYS in the Salk laboratories at Pittsburgh, awaiting sacrifice for polio.

to breed for science. But the climate was wrong and the experiment failed.

Other animals besides monkeys have been tested for their tissues

to grow the virus. There was some success with rodents' nerve tissue, but a high allergic reaction accompanied the immunization.

So far there has been one other living tissue of cells that both reproduces itself and supports successful growth of polio virus — and that is the tissue of cancer.

It was adopted with little change.

A motion to delete reference to the U.N. from the report was overwhelmingly defeated by voice vote.

The assembly declared, "We believe that lasting peace requires the elimination and prohibition of

all weapons of mass destruction." It practices all forms of segregation.

The assembly called upon members of the church to work for desegregation in businesses, professions, unions, housing projects, public schools and public positions.

Next year's general assembly

will be held in Philadelphia and in 1957 it will be in Omaha, Neb.

Corinne Edwards  
Becomes Bride  
Of W. Moulder

Miss Corinne Edwards, daughter of Mr. and Mrs. Sherman Edwards, Macks Creek, became the bride of Mr. Wayne Moulder, Kansas City, son of Mr. and Mrs. Rosscoe Moulder, also of Macks Creek, Sunday afternoon, May 22 at the Baptist Church there with the Rev. Smith performing the double ring ceremony. The church was decorated with floral arrangements of pink and white gladioli and lighted tapers.

The bride, who was given in marriage by her father, wore a gown of white satin and her corsage was of white carnations.

Cathy Rife, Lincoln, cousin of the bride, was flower girl. She wore a pink formal and scattered rose petals from a small basket.

Miss Winnie Garrett, Springfield, was maid of honor and bridesmaids were Miss Moulder, sister of the bridegroom, and Miss Janet Rife, Lincoln, cousin of the bride. They wore formals in shades of pink.

Mr. Don Cramer, Kansas City, served as best man. Mr. Jerry Rife, cousin of the bride, was an usher.

Following the ceremony a reception was held at the home of the bride's parents.

Upon their return from Colorado Springs, Colo., they will be at home in Kansas City.

The bride was home economics instructor at Macks Creek High School the past year and the groom is employed in Kansas City.

Those from Lincoln attending were Mr. and Mrs. Woodrow Rife, Janet, Jerry, Billy and Cathy, Leroy Carney and Betty Sue McCubbin.

#### Willing Toilers Have Contributive Supper

## Stover Church Has Reception For New 27

By Mrs. Herschel Small  
STOVER — A reception for 27 new members who have joined the Methodist Church the past year was held in the social room of the Stover Methodist Church on Sunday evening, May 22.

Members of the church who were graduates of the class of 1955 of the Stover High School were also honored. They were Claude Martin and Phil Small.

All took part in the inspiration led by Phil Small and Mrs. J. L. Stevenson.

Mrs. H. L. Small introduced the new members. Flowers were presented to them by Myrne Geary and Judy Stevenson.

Walter Warneke gave a short welcoming address. Mrs. Forest Gerhart and Lillie Williams entertained with selections of poems and readings.

Pictures, old and new of former pastors, church organizations, Sunday school classes and teachers, personal pictures and many others were brought by some of the members and were shown on the slide projector. They brought back many fond memories to some of the older members and to the younger set the appearances of many were quite comical.

Rev. and Mrs. Charles Whaley and family of Gainsville, Mo., will move this week to the Baptist parsonage. The Rev. Whaley has been preaching here for the past several weeks.

Mr. and Mrs. Emerson Brown and Mr. and Mrs. George Helmig, Lawton, Okla., arrived here on Tuesday, May 17, to spend the week with Mr. and Mrs. Charles Rapp and Mr. and Mrs. Orlyn Marriott and other relatives and friends.

A family gathering and a basket dinner was held at the Stover Homemakers Club Park on Sunday, May 22, in honor of Mr. and Mrs. Emerson Brown and Mr. and Mrs. George Helmig, Lawton, Okla. They are former residents of Stover and it has been three years since they have visited in Missouri. They returned to their home Monday morning.

Mr. and Mrs. J. L. Stevenson and Judy and Jay, Mrs. H. L. Small and Phil were dinner guests of Mrs. Cora Small on Sunday, May 22.

Mr. and Mrs. James Nelson, Judy and Joe, were evening guests of the Rev. and Mrs. William Dee Bammon, Bunceton, Sunday. They spent the afternoon with Mr. and Mrs. James Nelson. Lynda returned home with them Sunday evening.

## Railroads Mark Up Big Gains In Profits Over Last Year

By SAM DAWSON

NEW YORK (AP) — Rail stockholders are getting glowing pictures at their annual meetings—if they look back only one year or so for their comparisons.

New York Central shareholders, meeting today in Albany, are being told by Robert R. Young of the gains over a year ago. Pennsylvania Railroad's President James M. Symes told stockholders this was the best year in the last 10.

Reports of better times have come recently from the head men of Illinois Central, Southern Railway, Nickel Plate, St. Louis-San Francisco and others.

**Voting Begins To Decide Fate Of Eden Regime**

LONDON (AP) — Britons voted today on whether to keep the "free enterprise" government of Prime Minister Eden's Conservatives or to turn left to a Labor cabinet headed by Socialist Clement Attlee.

Balloting began at 7 a.m. under overcast skies. Some 28 million were expected to choose 630 members of a new House of Commons. The total eligible to vote is just under 35 million.

Polls close at 9 p.m., British time. The decision may be known by early tomorrow morning.

The party getting a majority of seats in the House will form the Cabinet—to be headed by Eden if the Tories are returned to power or by Attlee if Labor wins.

If the margin of victory is anything better than razor thin, the winning party will have a mandate to govern for the next five years.

Last checks by public opinion polls showed Labor had pulled up in the last few days of an unusually dull campaign. But the opinion samplers still predicted 51 per cent of the vote would go to the Conservatives to 47 1/2 per cent for Labor.

The rest was credited to the Liberals and smaller parties.

KNOB NOSTER — A large crowd attended the contributive supper held on the last day of school at Hope Dale R-7, four miles east of Knob Noster, Thursday evening. Miss Eileen Kendrick is the class teacher.

Mr. and Mrs. T. B. Smart spent three days with her mother, Mrs. Warren Benz and family.

M-Sgt. John E. Kay, stationed at Lockbourne Air Force Base, Columbus, Ohio, is attending the NCO Academy at Barksdale Air Force Base, Shreveport, La., for a six weeks course. While there, Mrs. Kay and their daughter, Leona Kay, are visiting her parents, Mr. and Mrs. H. L. Bell.

Mr. and Mrs. M. T. Adcock and Mr. and Mrs. Raeburn Lane visited Mr. and Mrs. Douglas Adcock in Springfield Sunday.

Mr. and Mrs. Claude Parrott entertained at dinner at their home northeast of town, Sunday to celebrate the 18th birthday of their twin sons, Dean and Gene. Others present were Mr. and Mrs. E. C. Parrott, Mr. and Mrs. Marvin O'Nile Dykes and Dale Parrott.

Sgt. and Mrs. Danny Holt and sons, Wallace and Douglas, left Wednesday for Longwood, Colo., where they were called because of the serious illness of Mrs. Holt's mother, Mrs. H. W. Balmert.

Mrs. H. H. Smiley returned home Saturday from LaMonte where she spent two weeks with her daughter, Mrs. Hugo Kappelman and family.

### St. Louisans Ballot On Improvement Bonds In 'Day of Decision'

ST. LOUIS (AP) — About one-third of St. Louis' registered voters are expected to cast ballots today on a \$10,639,000 municipal improvement bond issue and a separate \$16,395,000 bond issue for public school improvements.

Competitors have captured many of the new products of our expanding economy and most of the new traffic routes opened up by our geographically shifting population, the National Industrial Conference Board points out.

The results showed up bitterly for the railroads a year ago.

Because so much of their freight business is now in bulk commodities of low value per ton—such as coal, ore and coke—last year's setback in industrial activity hit the roads hard. This year the gains for the rails sprang in large part from the revival in the heavy industries. To aid the roads, the Presidential Advisory Committee on Transport Policy and Organization recommends broad relaxation of federal controls over interstate transportation.

The party getting a majority of seats in the House will form the Cabinet—to be headed by Eden if the Tories are returned to power or by Attlee if Labor wins.

## Russia Ratifies Unit Command In East Europe

MOSCOW (AP) — The Soviet Union has ratified the Warsaw agreement setting up a unified Eastern European military command. The anticipated action by the Presidium of the Supreme Soviet makes Russia the fourth Communist ally to approve the eight-nation "Red NATO."

The Presidium endorsed the formal alliance yesterday after hearing a long speech by Premier Nikolai Bulganin, on the eve of his departure for talks in Belgrade with Yugoslav President Tito.

Describing the agreement as a Communist answer to the rearmament of West Germany and its entry into the North Atlantic Treaty Organization, Bulganin declared:

"The joining of West Germany to NATO increases the aggressive nature of this bloc directed against the Soviet Union and the countries of the peoples' democracies, which is being accompanied by the activation of aggressive forces elsewhere in the world."

The treaty signed in the Polish capital May 14 joins the armed forces of Soviet Union, East Germany, Poland, Czechoslovakia, Hungary, Romania, Bulgaria and Albania under a single commander Russian Marshal Ivan Konev. Poland, Czechoslovakia and East Germany already have ratified the pact. Romania's government called a special session of its Parliament May 30 to take the same action.

### Retirement Plan Signed for State Highway Groups

JEFFERSON CITY (AP) — A retirement system for the State Highway Department and the highway patrol was signed into law by Gov. Phil M. Donnelly yesterday. Officials of the two agencies had tried for several years to get the Legislature to approve a pension plan. They said it was the main thing necessary to keep experienced engineers and patrolmen.

Under the system employees will contribute four per cent of their pay and the state will match that from highway funds. The plan will be administered by a board made up of the highway commission, the chief engineer and the patrol superintendent.

Benefits will range from \$300 a year for the employee who retires after 30 years of service and has earned \$1,500 a year for the final five years, to a top of \$1,500 a year for the man who quits at a top pay of \$7,500 after 30 years service.

Highway department workers will be pensioned at 65 and unarmed patrolmen at 55.

Patrolmen will get an extra \$90 a month until they can start drawing social security benefits at 65. This would give the average patrolman retiring within the next few years an estimated \$200 a month retirement pay.

## Protest End Of Coal-Power Locomotives

WASHINGTON — A shiny brass bell, silent until produced, clanged discord today as the interstate commerce commission set up a ceremony "to commemorate the passing of steam locomotives from America's transportation scene."

Arrangements for the event, centering around a richly embellished bell from a retired locomotive owned by the Frisco Railroad, went forward to the accompaniment of some pretty loud off-stage hissing by the friends of steam.

These friends insist that coal-burning engines are still very much a part of the railroad picture and that "death and burial services" for them in a government building are highly improper.

Sen. Kilgore (D-WA) joined a chorus of protest by coal-state congressmen, making an appeal to ICC Chairman Richard F. Mitchell to call off the ceremony, which he described as "a stunt to publicize the diesels."

Among other things, Kilgore demanded to see the vote by which the 11-man ICC had decided to participate in what he described as "an oil-generated hoax."

Also, he said, Congress may have to legislate "to keep our government agencies from making a midway of federal buildings," adding:

"It is important for Congress to make clear that this farcical advertising act is not to be regarded as a precedent."

There was no comment from Mitchell, but aides said the ceremony was still on.

## Woman Admits Killing In-Law, Step-Brother

VIENNA, Mo. — A 21-year-old Maries County woman was being held in jail here last night after admitting the fatal shooting of her step-brother and brother-in-law Rudolph Null, 26, today. Harold S. Hutchinson, prosecuting attorney, said.

Hutchinson said he would file first-degree murder charges against Mrs. Ruth Tate of near Dixon, Mo., today. He said the shooting occurred on a road near the farm home of Mrs. Tate's mother, Mrs. Ellen Null, north of Dixon.

Hutchinson said Null was shot through the chest. He said the killing occurred during a family argument. Null, a road construction worker, is survived by his widow and three children.

## Lt. Col. Robb Named to Fill Post at SAFB

Lt. Col. Harry W. Robb, 486th

Bomb Squadron Commander at

Sedalia Air Force Base, was named

this week to fill the deputy

base commander position which

has been vacant since last January

when Col. Charles V. Neil moved

to the commander's position.

Col. Robb has been at the 486th

heavily for approximately a year,

assigned to Sedalia from Pinecreek,

the Air Force Base, Fla., after

completing his B-47 transition

training. He has many years of

experience in both administration

and flying to qualify him for the

Deputy Base Commander position.

Col. A. J. Beck, wing commander,

stated "Col. Robb has done a

fine job in heading the 486th

Bomb Squadron and has met or

bettered all combat readiness com-

mitments. His new assignment is

a challenge I know he will meet

as well."

Selected to fill Col. Robb's vac-

ancy is Lt. Col. Flavel P. Sabin,

present deputy director of opera-

tions. He will assume command of

the 486th early next week.

Major Harold E. Brandon, opera-

tions officer for the 488th Bomb

Squadron, was named to fill the

deputy director of operations slot

at Wing, replacing Col. Sabin.

Democrats Driving  
For Adjournment Of  
Congress July 15

WASHINGTON — Democratic

leaders appeared to be driving to-

day for a July 15 adjournment of

Congress that could leave major

pieces of President Eisenhower's

program stranded.

Most of them presumably would

be renewed next January to touch

off controversy in a presidential

and congressional election year.

Sen. Lyndon B. Johnson of Tex-

as, the Democratic leader, de-

clined to fix any adjournment

goal. But he has taken a personal

hand in efforts to spur passage of

all regular money bills by the

June 30 end of the fiscal year.

Observing that "it looks as

though we might get through by

July 15," Sen. Sparkman (D-Ala)

said he doesn't think Congress will

stick around long after the money

bills have been cleared.

Ordinarily, the Senate doesn't

complete them until sometime in

August but Sen. Magnuson (D-Wash)

said yesterday a drive is on

to get them enacted by June 15.

Sen. Knowland of California, the

GOP leader, said Republicans are

going to try to rescue some Eisen-

hower proposals in committees for

several months. Democrats con-

trol the committees.

Teen Town will close Saturday

night and remain closed until

school begins next fall. The regular

hours of 7 until 11 will be ob-

served Friday and Saturday nights.

## Heart Attack Of Witness Blocks Inquiry

WASHINGTON (AP) — Sen. McClellan (D-Ark) said today a heart attack suffered by a key witness may force a postponement after today of an inquiry into alleged graft in buying of uniforms for the armed forces.

McClellan heads the Senate Investigations subcommittee, which has heard New York manufacturer Leon M. Levy give sworn testimony that he furnished nearly \$7,000 which he understood an associate would use to pay off government employees having supervision over clothing contracts.

Levy suffered a heart attack at his hotel last night shortly after conceding that Sen. Bender (R-Ohio) may have been right in calling him "a crook." Subcommittee aides quoted Levy's physician Dr. Emmett Markwood as saying the attack was serious.

Levy was admitted to the George Washington University Hospital, which declined to comment on his condition.

McClellan, calling more witnesses to a hearing today, said it may be necessary then to postpone further sessions. He described additional testimony by Levy as essential to the hearings.

He also backed two subcommittee aides against a shapely bruntie's charge that "they beat me" nearly to hysteria.

Mrs. Melia Hort, a former government contract administrator, yesterday flung the accusation at Robert F. Kennedy, the subcommittee's chief counsel and brother of Sen. John F. Kennedy (D-Mass.) and at Carmine Bellino, a staff accountant. She said they tried to get her to give false testimony.

She acknowledged she had flung a few "G. D's" at Kennedy and Bellino when they questioned her behind closed doors last Thursday.

And she conceded she feared disclosure of what McClellan mentioned to her as "some things we haven't revealed."

McClellan told newsmen: "It is perfectly apparent she wasn't browbeaten. The way she was cussing around, she wasn't browbeaten."

The hearings recessed yesterday with Sen. Bender telling Levy he never would have told the story had the alleged payoffs produced the profits Levy expected.

"You're a crook," Bender shouted, and Levy acknowledged, "Yes sir, you could call me that."

Bender said he was lecturing the witness in the face of advice from "someone" on the subcommittee to "go easy" because Levy "has a bad heart."

The senator said he felt it was time to speak out anyway, and added:

"I know he has a bad heart. We all have bad hearts."

land.

**House Committee Cuts  
Big Chunk from Grant  
Asked By Eisenhower**

WASHINGTON (AP) — The House Appropriations Committee today cut 21 per cent from the money requested by President Eisenhower for four federal agencies.

Percentagewise, this was the largest cut made by the committee this year on a regular appropriation bill, but the reduction amounted to only \$5,810,000 in cash since the agencies' budgets are relatively small.

The committee's action was taken on a bill to finance the President's own office, the American Battle Monuments Commission, the Subversive Activities Control Board and the Foreign Claims Settlement Commission in the bookkeeping year starting July 1. The House will consider the bill next Tuesday.

No reduction was made in four items directly affecting the President. These included \$150,000 required to pay the chief executive's salary and expenses, \$2,055,500 to operate the White House office, \$366,200 for White House "house-keeping" expenses, and a million dollars for the President's emergency fund.

**Honest Count**

CHARLOTTE, N. C. (AP) — Norman Kinzie, 19, closed out his account at the bank and recounting the money discovered he had an extra \$100.

He notified the bank but was told he must be mistaken.

"Look," said Kinzie, "I can count and I've an extra \$100."

Soon a bank messenger called at his home to pick up the surplus.

The Goods home was one of a number destroyed in a windstorm.

One of those given clothing by the organization which Mrs. Good favored was storm victim Roy Good.

APRON TRIO—These gay cover-up aprons for the whole family are easy to make at home in bright sturdy denim, with standard patterns. Applique designs individualize each apron. Children's aprons may double as sun dresses, since they are completely closed in back.

## Cover-up Aprons In Gay New Spring Patterns and Colors

By DOROTHY ROE  
Associated Press Women's Editor

Little girls don't mind covering up their pretty dresses when Mom outfits the whole family in matching wrap-around aprons, decorated to the taste of the wearer.

For helping in the kitchen, keeping clean before a party or just saving on laundry problems, the cover-up apron is the answer to a busy mother's needs.

Though the aprons are made from separate patterns, they are exactly alike with snug front buttoning, brightly contrasting binding and big cobbler pockets. The individual touches come from the applique decorations—an apple and a glass of milk for little sister, an ice cream soda and a cupcake for big sister and a doughnut and coffee for Mom.

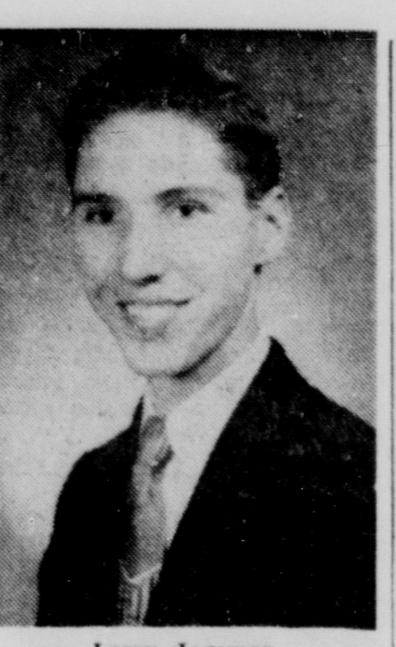

Local sewing center experts suggest you select lightweight denim in gay colors, perhaps making two aprons each for the children. The

## Tips Given On Care Of Turkeys On Range To Help Adjustment

When you get ready to move your turkeys to range, it will pay you to do all you can to help them adjust to this change in environment. If pouls can get by the first couple of weeks on range in good shape, they have an excellent chance of reaching market age. Weather is probably the cause of most trouble on range. High death losses often result when turkeys pile up during a sudden storm. Also, these storms lower the disease resistance of the turkeys.

Most turkey growers have found that range shelters will pay for themselves in a short time. The newer type shelters are built on skids and are moved from one range to another. Shelters should be large enough to allow about 1½ square feet per bird.

Two other items essential on range are clean water and well constructed feeders. Waterers can be mounted on skids for easy moving, and the platform will also keep the turkeys from wading in water that is spilled on the ground. Feeders should be constructed to prevent feed from being wasted or damaged from rain.

Poults can be accustomed to outside weather by using a sunporch. The birds should be encouraged to use the sunporch as much as possible and they can be locked outside the last two days before being moved to range.

Even though the necklines frequently rise high in the front, they go low in the back. The deep V is used most often but the U cut is evident, too. There are narrow shoulder straps set on square-cut necklines and lots of neat, flat, standaway collars.

Princess lines and empire seamings are particularly good in junior fashions. But the long-torso theme is developed in other ways. Hip banding, gathered fullness and flounces set low are all ways of achieving the elongated line. Pleated skirts, notably permanent-

ly-pleated cottons, fan out from long, molded tops.

Cotton prints are gay and amusing, take their cue from marine life, sea shells, commuter's trains, newspaper print. Colors shimmer, paling from the very bright to the delicate Victorians shades, including a whole range of mauve and lilac.

## Sponsor Combine Clinic to Help Protect Grain

By ESTEL HUDSON  
Assistant County Agent

Were you docked on the price of your farm grains last year due to cracked grain, chaff, straw or other foreign material? If so, you will be interested to know that the local machinery dealers, in cooperation with the University of Missouri, are sponsoring a combine clinic. The clinic will be Tuesday, May 31, at 8 p.m. in the Little Theatre of Smith-Cotton High School.

The experimental farms are located about four miles south of Columbia, just off Highway 63.

Some of the things you will see are experiments with plant breeding, new crop varieties, fertilizers and crop rotations. Also, this year you will see good examples of the residual effects of fertilizer applied to corn that was damaged by drought last year.

Everyone interested in soils and

questions which you might have.

This meeting should provide you with some information, which if put into practice, would enable you to harvest a higher quality of grain. No doubt you are interested in the outlook of the different farm grains which will be covered by Ragsdale.

As you know, operating a combine can be very dangerous if a few safety precautions are not followed. Stevens will bring us up to date on farm safety.

## Demos Block Ike Road Plan With Gore Bill

WASHINGTON (AP)—The battle over a massive road-building program shifted to the House today after the Senate handed President Eisenhower a sharp setback by passing a Democratic rival to his highway plan.

Sen. Gore (D-Tenn.), chief sponsor of the Democratic bill, arranged to appear before a House Public Works subcommittee to explain and argue for the measure.

Republicans contended the President's plan had much better prospects in the House, although Democratic leaders there have let it be known they favor the Gore bill.

The Eisenhower plan was beaten 60-31 in the Senate before that body went on to shoot its approval of the Democratic measure without a rollcall.

On the decisive test, 13 Republicans deserted the administration while only one Democrat—Kennedy of Massachusetts—supported the President's proposal as a substitute.

After this vote, Republican leaders made a bid to shove the Gore bill by sending it back to the Public Works Committee. They were beaten this time 50-39. Not a single Democrat supported this, and four Republicans refused to go along.

The Democratic measure would set in motion, subject to actual appropriations, a five-year, 18-billion-dollar highway spending program—one of the biggest non-defense projects ever sparked by federal funds.

It would be designed to improve and modernize all of the nation's road systems—from major superhighways linking up all parts of the nation to farm-to-market country roads in every state.

Of the total, the federal government would put up about \$12,600,000,000 and the states \$5,400,000,000.

Federal grants for roads in the first year of the program, the financial year starting July 1, 1956, would double present outlays. By the fourth and fifth years, they would be triple.

The federal share would be financed by direct outlays from the Treasury through regular appropriations. This would tend to swell the present federal deficit, and is a chief administration objection to the bill.

### Scientists Develop Vaccine for Poultry

Here's some encouraging news for poultrymen. USDA scientists have developed a vaccine that shows promise of conquering poultry's most dreaded disease. This cancer-like disease is commonly known as big liver disease, grey eye or range paralysis. It costs poultrymen about fifty million dollars a year in poultry meat and egg losses.

The new vaccine gives a high resistance or immunity to chicks when the mother hen is vaccinated with the disease virus. However, the vaccine will not be available to poultry producers until it has been thoroughly tested under a variety of conditions.

A positive method of detecting this disease in chickens has already been developed. If the vaccine proves practical, it may mean the disease can be completely eradicated in time.

EVERY MEAL A PARTY—Gaily colored paper plates, cups and favors give a party air to a child's sickbed tray. Decorating them can provide hours of fun.

### Sick-In-Bed Fun In Smart Plate Designs

AP Newsfeatures

Anyone who has had to entertain a sick child who must spend a week or so in bed will appreciate any new ideas on how to do it.

Since mealtimes are more important when a child is confined to bed, try to make them as festive as possible. Gaily colored paper plates and cups will give the tray a party air, and in addition will help prevent the spread of infection to the rest of the family.

Paper plates also can provide hours of fun to keep the small patient busy and happy. Let her cut out pictures from old magazines and paste them on the plates, which form a frame. The decorated plates can be attached with doll clothespins to a cord strung between the bedposts, alternating with get-well cards.

She'll have fun making dolls from large paper drinking cups. The inverted cup can be used for the body of the doll, with a lollypop covered with plain paper stuck through the end for a head. After a face is drawn on the paper, and colored yarn is pasted on for hair, a hat can be made from a milk-bottle cap decorated as the young artist sees fit, with flowers, feathers or sequins.

### Shampoo Sold To Add Color To Dull Hair

By Alicia Hart  
NEA Beauty Editor

Those engulfing hats and scarves that keep us from freezing have taken their toll of our hair. After being tucked up, stuffed in and pinned down for the sake of warmth, hair is scarcely fit to blossom as the shining complement to a spring outfit.

And it's not just the brownheads who've suffered, the golden and white-heads are a touch on the drab side, too.

One of the answers to the problem of reviving hair for spring hats and smoothed-back coiffures is the raft of tinted shampoos that clean the hair and then add extra glint and sparkle with a touch of color.

Brand-new is one tinted shampoo for the light-headed among us—the blondes, brunettes and white-haired. This shampoo gives a touch of the color of spring's favorite flower, the violet, for a heightened luster. The color was

mixed exactly by a famous beauty expert to add ash lights to blonde hair, silvery glints to gray and white hair.

For the routine to go with this color shampoo, the maker recommends washing the hair at least once a week. First a vigorous massage, an equally vigorous brushing. Then two sudsings and two rinsings and the hair should have a heightened color, plus a glint of violet, to welcome spring and its frothy fashions.

Fixed

RICHMOND, Va. — An English visitor listened as two American newsmen discussed clarity in news writing and the need for simplified language.

"And how you Americans do simplify it," said Karl Archibald, of London. "I am interested in the use here of the word 'fix.'

"I am invited to dinner and my host asks how I would like a drink fixed. He means mixed. My hostess calls to us to hurry because dinner is all fixed—and she means prepared. My host says he must get a flat tire fixed—and he means repaired. You say you are on a fixed income—and you mean steady and unchanging. You say you will fix something to the wall—and you mean attach. And you say 'I'll fix him'—and you mean get revenge."

"Finally you remark that you are in 'a Hell of a fix' and I see that you may have some comprehension of my predicament in trying to follow your simplification."

Stuffed Rats

TOLEDO, Ohio — The University of Toledo's research department was asked by a doll manufacturer to determine whether a rubber and plastic stuffing compound for dolls would harm children. So for two years, several white rats must eat food with the compound chopped up in it. So far, there have been no ill effects.

HOUSTONIA — Mr. and Mrs. Forrest Reynolds and sons, Garry and Donnie, Holden, were guests Sunday of Mr. Reynolds' aunt, Mrs. Broadus Wiley and Mr. Wiley.

They have practiced aviation medicine in the field for five years or longer. The Randolph Field medical school is helping them prepare for their specialty board examinations.

## Victor Vito Offers Tips On Hair Care

By Alicia Hart,  
NEA Beauty Editor

A man who would seem, at first glance, to be defeating his own purpose is New York's Victor Vito. This established hair stylist has opened a school to teach women how to be beautiful of face and hair without the air of a beautician or hair stylist.

In other words, he is giving the women who lap up his beauty hints the ability to say "poof" to weekly stays in his salon if they like.

In the variety of courses and sessions he offers, Mr. Vito shares his beauty tips with great generosity. And they are hints any woman could use.

For instance, most women's daily ritual, setting the hair, could use some improvement. Mr. Vito suggests setting lotion or beer to moisten the hair for the set.

"Use as few pins as possible," Mr. Vito advises. "Also, pin the hair where you want the actual curl to be when you're done. The pincurl shouldn't be lifted more than a quarter of an inch above the desired location."

On using a hair net, Mr. Vito also has some tips. Put it on with care and don't squash the curls with a tight net.

When it comes to combing out the set, this hair stylist recommends combing away from the face and with an upward movement. He says that 90 per cent of all hairdos should be combed out in this way, whether they are down and forward hairdos or ones with back and side interest.

He explains that one of the purposes of combing the hair in this way is to make the bottom hair appear thicker and stand away from the head.

For women with straight hair who want it that way, Mr. Vito explains that the secret is in the cutting. The hair should be cut by a professional so that it falls down and forward, since the natural line of straight hair is like this.

### Reporter Makes News

RALEIGH, N.C. — A House committee reported favorably on a local bill after some unsolicited and unofficial help from a newspaper reporter.

Reporter Lynn Nisbet moved for a favorable report on a bill providing for open meetings of all municipal council meetings at Statesville.

Before anybody realized the motion came from a nonmember it had been seconded and the favorable report recorded by unanimous vote.

### Appropriate Advice

HOUSTON, Tex. — Martha Pray is Christian education director for the Episcopal Diocese of Texas. She recently rented an apartment from the B. F. Christian family. The nameplate on the mailbox now reads, "Pray-Christian."

### Help, Police!

ANN ARBOR, Mich. — Robert Davidson made certain of free meals for 10 days. Broke, he borrowed a dime to call police and get a jail sentence after ordering and eating eight cheeseburgers and failing to pay for them.

## Make Sure Equipment Has Safety Lighting

This season of the year brings on a rush of field work, and sometimes you may need to be out on the road with farm equipment after dark. Be sure this equipment is adequately lighted. Many serious accidents occur when fast-

moving cars or trucks crash into the rear of slow-moving tractors. Most times in these accidents, it's the driver of the tractor that gets hurt.

The Missouri Rural Safety Council urges you to equip your unlighted farm machinery with reflective materials. Many of our 4-H clubs and Future Farmers of America chapters are conducting campaigns to light farm equipment. Do your part by cooperating in this campaign to promote rural highway safety throughout the country. You'll be helping yourself as well as your neighbor.

## Infant Skin Best Because Of Its Care

By ALICIA HART  
NEA Beauty Editor

All the talk about a baby's beautiful skin is not propaganda for obstetricians—it's true. An infant's skin is the softest, clearest, most satiny stuff in the world. And it's no accident.

He lives a life that most women's skin would thrive on. He eats plenty of health-giving foods—no fried foods or rich desserts. He's washed in the purest of soaps every day. He's kept warm and comfortable and is not subjected to debilitating cold weather, rain or office soot.

But it's not long before the infant's skin begins to look like everyone else's. He begins to live in the world where the rest of us dwell, where everything is designed to make skin into a leathery protective coat rather than a beautiful asset.

To counteract the tough world where everything acts on the skin, teenagers need to remember three basic principles.

First, skin beauty begins inside. An unbalanced diet lacking in basic minerals, vitamins and elements will produce a skin no specialist can save.

Every day a girl should tuck the basic seven into her diet if she wants to have a beautiful skin from the inside out. Plan for: leafy green or yellow vegetables; citrus fruit, tomatoes or cabbage; potatoes or other vegetables or fruit; milk or milk products; meat, poultry, fish or eggs; enriched bread, flour or cereal; and butter or fortified margarine.

Second, the climate we live in leaves ravages that need to be repaired. Dirt must come off. Chapping must be cared for. The complexion left by drying sun and water must be repaired. Soap and cleansing creams are a teenager's aids here.

A new skin cleanser in a tube is designed to do this work without leaving the skin dry or drawn, as soaps do to many women. It makes a good lather and the tube is easily carried in the purse to places where a woman may be unwilling to use any old soap.

The third skin-care principle is the wise use of cosmetics. Good, safe cosmetics are any woman's legitimate weapon to enhance the looks of her skin. Careful selection with the help of a beauty specialist and painstaking application make powder, lipstick, rouge, eye shadow and eyebrow pencil of real value for a handsome skin.

## Bonn to Counteract Soviet Unity Plan Before Big 4 Meet

BONN, Germany (AP)—The Bonn government sent its ambassadors to the Western Big Three back to their posts today to launch a counteroffensive against Soviet plans for German reunification.

The three envoys were told in a conference with Chancellor Konrad Adenauer yesterday they must:

1. Discourage any notions that West Germany will accept neutralization to win reunification.

2. Make plain that the Bonn regime is pushing on with rearmament to fulfill its North Atlantic Treaty Organization obligations.

3. Do all possible to keep the West German viewpoint to the fore in preparatory discussions for the proposed Big Four meeting.

The ambassadors were called home after Adenauer reportedly became worried over the rate at which the idea appeared growing that industrial Germany could be neutralized as neighboring Austria was by its independence treaty.

## Mississippi Governor To Resist Democrats

JACKSON, Miss. (AP)—Fielding Wright, States Rights vice presidential candidate in 1948, said last night he will oppose any attempt by the Democratic National Convention to support the U.S. Supreme Court ban on segregation.

Wright, opening his campaign for another term as governor, told a television audience that if elected and sent to the Democratic convention, he would not take a loyalty oath in advance to support the candidate or platform.

## Hold Reparations Talk

TOKYO (AP)—Kyodo news service said today Japan is holding to a 400-million-dollar ceiling on its World War II reparations offer to the Philippines. Kyodo said Philippine Reparations Ambassador Felino Rori would meet Japan's Tatsunosuke Takasaki in a day or two for a "make or break" session in the prolonged negotiations.

## Drives With Horning

MUSKEGON HEIGHTS, Mich. (AP)—A safety checkup revealed Harry Bacon's car had no steering wheel, only a horn ring. "The wheel came off so I use this," Bacon explained. He was ordered not to drive until he gets a new wheel.

How to fix radish fans? First remove the stems and root tips from the radishes. Then cut the radish almost through in close-together crosswise slices. Dump the radishes into a bowl of ice water and place in the refrigerator until the paper-thin slices fan out.

### Sees Daughter Killed

CHARLESTON, W. Va. (AP)—Harried, Oliver Newman looked from the front porch of his home beside the New York Central Railroad and saw his 2-year-old daughter Margaret, who had been playing in the yard, sitting in the center of the tracks. A freight train was roaring toward her.

Newman ran toward the tracks—but too late. The train struck his daughter when he was only a few feet away. She was dead on arrival at a hospital.

**Huge Plane Crashes In Bad Thunderstorm**

SAN ANGELO, Tex. (AP)—A surface convoy from Goodfellow Air Force Base pushed through rugged range country today toward the crashed, burned-out hulk of a B-52 Chevrolet.

"I'm saving for my duals," she proudly announces. "Next, I'm going to lead it in" (rip off the chrome and lead the holes). Then I'll make the back end lower."

One of the officials most pleased was another male stronghold who was successfully infiltrated. Not that it came as a complete surprise, for officials—including male ones—in this city have realized for some time that the myth which has for too long surrounded women drivers is practically dead.

Two Ohio insurance companies, whose home offices are located here, were among the first to admit recently that a single girl under 25 is a safe insurance risk and should not have to pay an extra premium.

They couldn't say the same for males in that age bracket, who must continue to pay the additional premium.

Still, girls driving hopped-up cars are an unusual sight. It took some fancy talking by blond, blue-eyed Shirley Felder to convince the boys they'd have to get used to it.

Pleading the girls' cause, the 17-year-old president of the "Skirts" had this to say:

"We're interested in promoting highway safety, too," she declared. "And some of us used to watch the boys work on their cars. One day I got to thinking. Why don't we start a club of our own? So I started writing down names. There were more girls interested in

working on cars than I realized."

Several of the girls drive their parents' autos. A few, like Shirley, have their own. Shirley's is a 1953 Chevrolet.

"I'm saving for my duals," she proudly announces. "Next, I'm going to lead it in" (rip off the chrome and lead the holes). Then I'll make the back end lower."

Science now helps you take off fat while you eat the foods you choose!

You like sweets, candy, cake, butter, gravy, potatoes? Have you tried on anything after another to reduce, spent dollar after dollar for pills and tablets and in spite of everything you've tried you're still too fat? Well, be as skeptical as you like, but now, right now, there's a wonderful new kind of capsule that helps you take off pounds and inches of ugly fat safely, quickly and as much easier as you hardly know what's happening. You don't suffer starvation dieting hunger, you take no drugs, you don't exercise. In fact, you don't even diet one bit more than you want to, because you automatically eat less and here's why...

counteracts hunger

Just recently well known scientist perfected a new tiny capsule that combines not one but ALL THE RECOGNIZED proven aids to reducing. It combines the vitamins and minerals often lost when cutting off fattening foods containing these needed vitamins and minerals. It combines the vegetable cellulose that has no calories yet expands when it absorbs water thereby helping give the feeling of a full, contented stomach. In fact these tiny capsules are so packed with vitamins and minerals, protein and non-calorie filling food, they actually equal and exceed many a meal.

## High School Star Pitcher Joins Orioles

BALTIMORE (AP) — John Bruce Swango, a broad-shouldered farm boy pitching discovery, joined the Baltimore Orioles yesterday full of confidence and apparently unafraid of his big jump from high school into the major leagues.

The 18-year-old righthander flew in from his native Welch, Okla., and immediately established himself as a cross between the fictional Frank Merriwell and a star pitcher of yesteryear, Dizzy Dean.

Swango's high school record sounds like something an author might dream up for a novel. And the way he talks about smacks of the great Dizzy. At least he's not overly modest.

When he was signed to a bonus contract last Sunday, it was reported Swango was to receive \$30,000 in inducements and salary over a three-year period.

But Bruce—as he prefers to be called—straightened those preliminary estimates out in short order, explaining that his pay for those three years will amount to \$36,000.

The plain-spoken kid also hastened to correct a slight exaggeration of himself. He said he was not as fast as Bob Turley, the New York Yankee, fireball. That's how Swango was described by centerfielder Mickey Mantle of the Yankees when the New Yorkers were dickered for his services.

But Bruce admitted he was "pretty fast" as a grin crept across his square-jawed countenance. "I struck out an average of 17 batters for each seven-inning game, so I guess I might throw pretty hard."

Swango fanned 21 batters in one game and 22 on another occasion "because the catcher couldn't hold the ball and I had to fan an extra hitter."

Bruce said he wasn't sure but he thought he hurled "three or four" no-hitters and about four one-hitters. When not pitching he played the outfield and batted a modest .450 as a left-handed swinger. He batted in the clean-up spot—naturally.

## Minner Scores 17th Victory Over Cards

By THE ASSOCIATED PRESS  
Lefty Paul Minner can throw his glove on the mound and just about have a victory over the St. Louis Cardinals.

The 31-year-old veteran hurler picked up his 17th lifetime win against only 7 losses over the Redbirds yesterday as the Chicago Cubs took both ends of a doubleheader, 1-0 and 3-1, at Wrigley Field.

Minner shut out the Cards in the opener on four hits. It was his second win over St. Louis without a defeat this season.

Rookie Bob Speake's sixth-inning homer was enough for Minner as he bested rookie Larry Jackson in a mound duel during cool 46-degree weather. Jackson dropped his first decision against two wins.

Big Bob Rush continued the Cardinal drought on runs in the nightcap until Rip Repulski belted his seventh homer of the year in the ninth. He held the Cardinals to only two hits.

A first inning single to Bill Virdon and Repulski's homer were the only safe blows off the veteran righthander.

The Cubs gave Rush a 20 lead in the first inning and knocked out Brooks Lawrence before he retired a batter.

In Kansas City, the Athletics dropped their fifth straight decision to Detroit's Tigers, 8-2, last night behind the six-hit pitching of Frank Lary and a barrage of 14 hits, including homers by Bill Tuttle and Fred Hatfield.

The A's only victory over Detroit came in the season opener.

The Detroit rookie righthander held the A's to only one hit, Jim Finigan's home run, through the first five innings. Ray Herbert, whom the A's got from Detroit two weeks ago, was Kansas City's starter and loser.

Herbert was touched for 11 hits in six innings of work but was hampered part of the time by defensive lapses by the A's. The victory for Lary was his fourth against four losses.

That's the way it was again yesterday as the Cubs swept a double-header from the St. Louis Cardinals and climbed into second place in the National league, six games back of Brooklyn.

Paul Minner, who hadn't worked since May 6 and hadn't won since April 22, came up with a four-hitter, and rookie Bob Speake, an infielder now roaming the outfield, chipped in his sixth home run to win the opener 1-0.

It was the fifth shutout of the season for the Cub staff—tops in the NL.

Veteran Bob Rush, with just one winning season in the majors, took charge in the nightcap, with the Cards limp with a two-hitter to win 3-1. He had a 20 lead in the first inning on a home run by Eddie Miksis (another outfield convert from the infield), a triple by Gene Baker and Speake's double. The Cards' run came on a homer in the ninth by Rip Repulski. Chicago has won 10 of its last seven.

That pushed the Cubs ahead of the New York Giants, who slipped to third while losing a twi-night pair at Philadelphia 8-3 and 5-2. The Giants now have lost three in a row after winning six straight, while Cincinnati made things tougher for fourth-place Milwaukee by beating the Braves 13-2.

In the American, New York's Yankees beat Washington 6-2 on Yogi Berra's three-run homer and a three-hitter by Bob Turley, who won his eighth decision in nine starts. The victory widened the Yanks' lead to 1½ games. Rain postponed Chicago at Cleveland.

Stylish Gloves Give Women Neater Garden Work Apparel

Gardening gloves with style are these of striped sanforized denim in gay colors. They have plasticized fabric palms. The palms can be wiped off under the tap during work, the whole glove can be washed out for clean gardening.

By Alicia Hart  
NEA Beauty Editor

There are many women in this world who object to blue jeans as working wear. These are the gals who never look like an unmade bed even when they're making the bed.

These women must be suffering the tortures of Dante when they had to do a job that meant wearing work gloves. These are the gals who look as though they had just been removed from a hermetically-sealed cellophane package, even when doing spring cleaning, and the traditional hand protecting gloves must have been a sore trial to them.

Those days are gone. It's no longer necessary for these crisp window-sill flowers of homemakers to lower the shutters and lock the door when they don work gloves.

One manufacturer has come to the rescue of the organdy apron crowd with work gloves as fashionable as a Dior copy.

Not only fashionable, my dear.

Your chances are better on **CONCRETE**

A child suddenly darts into the street ahead of your car. *That's when you have to stop—quick!* And that's when you're thankful for a pavement that grips your tires and holds!

A concrete pavement gives you a very real margin of safety. Wet or dry, its gritty surface grips your tires firmly, enabling you to stop—fast! At night concrete reflects more light, thus improving visibility and helping to reduce accidents.

Concrete is also far more economical because it lasts longer and costs less to maintain. That's of interest to you, Mr. Taxpayer, for it's your money that pays for street paving.

Save lives—save money: tell your public officials that you want durable, economical, safe concrete streets.

## Margaret Has But One Fear In Interview

By WAYNE OLIVER  
NEW YORK (AP)—Anybody substituting on a television interview program might be expected to feel a little nervous interviewing a former president and First Lady on TV.

But that isn't what's worrying Margaret Truman.

"The only thing I'm worried about is trying to sit in Ed Murrow's chair," says Miss Truman of her latest TV role, conducting a Person to Person interview with her parents on CBS tomorrow night.

After planning for months to have the former President appear on the show, Murrow had to go to England to cover today's elections. So Murrow asked daughter Margaret, now a TV veteran, to take his place in New York, as the cameras visit the Truman home in Independence, Mo.

"The first time Ed asked Dad to appear he simply couldn't fit into his schedule," Miss Truman explains. "The next time I couldn't be there because I was on a concert tour and Ed wanted all three of us together. Then three or four weeks ago he asked if I'd take his place here for the visit Friday night.

"What I'm going to do is that before the show I'm going to be able to see them and they can't see me. The video monitor is one-way."

Once the show is on the air, however, Mr. and Mrs. Truman will be able to see Margaret whenever she's on camera.

Miss Truman has been under contract to NBC the past four years, and received special permission from the network to appear on the rival CBS.

## Fire Destroys Large Barn Near Green Ridge After Lightning Hits

A large barn on the 160-acre farm of Mr. and Mrs. Glen Morris, about a mile south of Green Ridge on Highway No. 127, was destroyed by fire Monday night.

About 9:15 p.m. members of the Morris family in the home saw a sudden flash of lightning strike the barn, which immediately burst into flames.

About 100 persons from Green Ridge and neighbors joined in helping protect other buildings on the farm from becoming ignited.

The barn was half-filled with baled hay, contained 400 bushels of corn and other feed and equipment.

Insurance partially covered the loss.

Polar bears have been seen swimming in the sea 200 miles from land.

Feeling The Pressure

LEBANON, Pa. (AP)—The city water bureau tested its new pumping station with this result:

Three of the town's old water mains burst with the pressure, plumbing in many houses crumpled and everyone's tap spouted brown, iron-stained water.

The Harper Dancing School door in the 100 block on South Lamine was found unlocked at 10:45 p.m. The door was locked and a note left for the operator.

A door to the Hargrove Sign Co., West Second, was found open by the police. The door was locked and a note left for the manager.

A 1942 Ford tudor coach belonging to Rudd Van Dyne, 1012 West Broadway, was reported stolen from in front of his home about 2 a.m. Thursday. The car was seen going west on Broadway.

Barbara Buso, 415 East Harvey, daughter of Mr. and Mrs. Joe Buso, was bitten by a dog about 8:15 a.m. Thursday.

The girl was treated by Dr. W. A. Beckemeyer. The wound made by the dog was on the left leg, just above the ankle.

### Police Court

L. E. Brown, 1218 South Sneed, charged with double parking in the 100 block on East Second, forfeited a \$2 cash bond.

Ed Butterbaugh, 620 East 15th, charged with running a red traffic light at Main and Ohio, forfeited a \$5 cash bond.

Stanley York, 20, 1901 East 15th; Franklin Elson Howell, 18, 918 East Sixth, and Renaldo Buso, 19, 315 East Harvey, all charged with riding motorcycles in a careless and reckless manner, all failed to appear in police court Thursday and their bonds of \$25 each were ordered forfeited.

York and Howell were arrested on Limit for going 55 miles per hour on Limit between 18th and 22nd, while Buso was picked up later on a city warrant for going 55 miles per hour on Limit between 16th and 22nd.

Victor Gene Ditzfield, 22, LaMonte, charged with careless and reckless driving for going 55 miles per hour from Warren to Barrett on Broadway, then exceeding the speed limit from Broadway to Third on Barrett and turning the car at Third and Barrett too fast, failed to appear in court and his case bond of \$25 was ordered forfeited.

Seven overtime parkers who failed to appear in police court forfeited their cash bonds of \$1 each. Forty overtime parkers who got tickets for overtime parking but reported to police headquarters within a half hour paid 25¢ fees.

### Magistrate Court

Charles N. Pitts, Kansas City, Mo., was fined \$25 and costs after pleading guilty to a charge of careless and reckless driving for passing on a hill.

### Next Question

BRIDGEPORT, CONN. (AP)—As a homework assignment, teachers asked Bridgeport students to find out what the "A" stands for in Gov. Abraham A. Ribicoff's name. No one, including newspapers, could provide the answer. Finally, a reporter put the question to the governor himself.

Said Ribicoff: "My middle name is Alexander."

Feeling The Pressure

LEBANON, Pa. (AP)—The city water bureau tested its new pumping station with this result:

Three of the town's old water mains burst with the pressure, plumbing in many houses crumpled and everyone's tap spouted brown, iron-stained water.

Richard E. Kasak, Commander.

## Smithton School News—

### Next Year's Staff Almost Complete; Awards Given

The faculty for next school year in the Smithton Schools is complete except for one high school position. The staff is as follows: Superintendent, Paul S. McKeon; coach and social science, Keith Anderson; commerce, Bobbie Jones; agriculture and mathematics, Ralph Dowler; social science and mathematics at the junior high level, William Pate; home economics, Mrs. Al Moore; music, Mrs. Estes; English, Mrs. E. Baum; Grade 1, Mrs. John Neff; Grade 2, Miss Patty Callis; Grade 3, Mrs. Stanley Rages; Grade 4, Mrs. Roderic Demand; Grade 5, Mrs. Earl Leaton; and Grade 6, Mrs. F. C. Franklin.

Honor students in the Senior Class were Glenda Blaylock, daughter of Mr. and Mrs. J. R. Blaylock, and James Monsees, son of Mr. and Mrs. Olen Monsees. These students also received the award of Good Citizenship given each year to one boy and one girl in the Senior Class for outstanding service, participation in extra curricular activities.

Mrs. Blaylock accepted the Senior Scholarship from Central Missouri State College, and James Monsees accepted the Curator's Scholarship from the University of Missouri.

Beverly Todd, whose parents live in Clifton City, and Margie Jane Peoples, daughter of Mr. and Mrs. Archie Peoples, received honorable mention in the field of scholarship. Outstanding students in various fields, selected by teachers, were Junior Monsees, agriculture; Glenda Blaylock, music; Beverly Todd, algebra; and Glenda Blaylock and Beverly Todd in home economics.

In the field of athletics for girls this year, the following students lettered in volleyball. Beverly Todd, Mary Lea Kahrs, Glenda Blaylock, Gladys Reid, Delaine Griffith, Ruth Smith, Betty Shroud, Leda Lou Hoehns, (all received bars, and Verna Reir and Virginia Grimes, received a letter, emblem and a bar. Norma Sickler received the student manager award. Delaine Griffith received a medal for the best senior athlete, based on cooperation, attitude, performance and sportsmanship. Mrs. Nancy West was physical education instructor.

In the field of athletics for boys, the following students participated in one-half (or more) of the 26 games played by the "A" team for the 1954-55 basketball season and received these awards. Bars, R. D. Kahrs, B. Cook, R. Hiltzburg, C. Jeager, W. Young, P. Siegel and Carl David Bellah; spelling, Judy Ann Whitlow and Robert Hyatt.

Grade 4—Special award for work in art, Daryl Shewell and William Perry; spelling, Daryl Shewell and Wanda Griffing.

Grade 5—Spelling, Sharon Todd and Peter Siegel.

The Parent Teacher Association of Smithton started a project to landscape the grounds in front of the new building. A committee composed of Mrs. Olen Monsees, E. L. Birdsong, and Ralph Dowler, engaged a nursery to do the planting. At this time they have four dwarf cedars, 12 junipers, eight dwarf holly and two small evergreens set. Mrs. P. V. Siegel is president of the PTA.

### Kiss Or Sniff?

NORFOLK, Va. (AP)—Said the trial Judge: "This is not the first time that a girl has been kissed in a car. But at least park it first."

"I wasn't kissing the girl," said Preston Watson. "I was just leaning over to sniff some rare perfume she was wearing."

"If I'm," said the judge. "Twenty-five dollars fine and keep your eye on the road."

## Explosive Gas Found In School's Water

ARVADA, Colo. (AP)—An elementary school described as a "veritable time bomb" was ordered closed yesterday when Bureau of Mines officials found its water system saturated with explosive gas.

Charles L. LeFeber, construction engineer for the school district, said 74 children continued to attend classes after a building custodian discovered the gas 10 days ago. The school was completed only this spring.

Bureau of Mines officials said they traced the methane gas to a 1,050-foot well at the Henry J. Juarez School north of here.

The gas is soluble in water and is colorless, odorless and tasteless. Its accumulation frequently is blamed for coal mine blasts.

Chop scallions (green onions) fine and mix with melted butter; pour over freshly boiled new potatoes. Delicious with broiled lamb chops!

## Smith, Dale Comedy Duo, Veteran Stars

HOLLYWOOD — The battling comedy teams of today can take a lesson from Smith and Dale, who have been creating laughs together for 57 years.

Comedians like Abbott and Costello and Martin and Lewis have suffered splits and dissensions which have placed strains on their careers. Smith and Dale can show them how two men can live and work together in a highly competitive business and still get along.

No vaudeville fan needs to be told who Smith and Dale are. But to the younger generation, it can be explained that they were the more famous members of the Avon Comedy Four.

Some years ago, Variety polled veteran stars on which were the best acts of the vaude era. The majority placed the Avon Comedy Four at the top. Their most famous routine is the zany Dr. Kronkite sketch.

Smith and Dale are getting belly laughs with Dr. Kronkite nightly at a night club called the Bandbox.

The veteran pair was relaxing in the sun at their Hollywood hotel and reminiscing about their career.

"I'll tell you why we've never split up," said Joe Smith, who is 71, powerfully built, and hawk-nosed with a dapper mustache. "We've had our fights in the dressing room and listeners say, 'Oh, this is the end of the team.'

"But we never carry our disagreements out of theater. Whenever we argue, it's for the good of the act. There's no jealousy over who gets laughs."

"That's right," added Charley Dale, almost 74, a wry-looking fellow with heavy-lidded eyes and a fighter's nose. "That's what breaks most teams up. One of them wants to be an individualist. You can't think about laughs for yourself alone. You've got to think about the good of the act."

**Ready for Fire**

BARNHART, Tex. — If you're in this little West Texas ranching community and know of a fire, just hop in the fire truck and take off. The truck is always out and the key in it.

When Big Lake, Tex., bought a new fire truck, a representative phoned a Barnhart citizen and said the old truck was for sale. It originally was an Army Air Force crash truck.

A hat was passed around town and brought in about \$250 in a couple of hours. After the purchase, area ranchmen found out about the deal and insisted on shoving money into the hands of the caretakers.

Shortly after the truck's purchase, Gene Linthicum's barn caught fire. Energy and hard work of volunteers made up for experience. Only a third of the barn burned and other structures were saved.

### Dates Ahead

Thursday, June 2 — The Women's Activities Committee of the Pettis County Farm Bureau are sponsoring a tour for the business women of Sedalia. The group will meet at the baseball parking lot just east of the swimming pool at Liberty Park at 10 a.m. The first place to visit will be R-1 School north of LaMonte, then to Oak Grove School and Community House for basket lunch, this is located  $\frac{1}{4}$  mile north of the drive-in theatre. After lunch they will visit the new home of Mr. and Mrs. Paul Read, New Bethel Club, Pleasant Green Church, the remodeled home of Mr. and Mrs. Wayne Tinney and South Abell Community Building. All Farm Bureau and Extension Club members are urged to attend and bring a basket lunch. The Sedalia business women will be guests for lunch. Everyone going will arrange for their own transportation.

Friday, June 3 — Extension Club Clothing Leaders Training Meeting will be held at Whittier School, 907 East 16th, beginning at 10 a.m. Miss Orene Cowan will present the lesson "Sewing Machine Attachments." Each club will bring along a sewing machine in order for each two women to have a machine to use.

Tuesday, June 7 — The district "Make It Yourself With Wool" contest will be held at the First Methodist Church, Fourth and Osage.

Wednesday, June 8 to Saturday, June 11 — The 4-H delegates from this county will attend 4-H Club Week in Columbia.

Tuesday, June 14 — Home Agent visit to Maplewood Extension Club.

Tuesday, June 21 — Home Agent visit to Oak Grove Extension Club.

Wednesday, June 22 — Home Agent visit to Eldorado Extension Club.

Saturday, June 25 — County 4-H Judging Day.

Thursday, June 30 — Tentative date for tour of Moniteau Woolen Mills, California, Mo.

**June Is Dairy Month**

The Extension Club women are cooperating with the June Dairy Month activities by asking managers of the various eating places in Sedalia to display on their tables or counters the milk "tents" emphasizing the theme "You Never Outgrow Your Need for Milk."

Several of the wives of the Farm Bureau Dairy Committee are assisting with plans for the Dairy Smorgasbord for the evening of June 1. These include: Mrs. John Silsby, general chairman; Mrs. Melvin Turner, foods committee chairman; her committee consists

of Mrs. Mary Summers, Mrs. Lee Dow, Mrs. Henry Alt, Mrs. Ernest Schlobohm, Mrs. Eugene Helman and Mrs. Gerald Volpp.

The decorations committee consists of Mrs. Clarence Williams, chairman; Mrs. Rudy Rehmer and Mrs. Robert Welliver.

The ladies of the St. Patrick's Church will prepare the meal.

**Spring Greens**

Fresh greens offer meal planners an excellent opportunity to brighten up their meals with attractive, appetite appealing dishes and, at the same time, add a great deal of food value in an economical way.

"Greens" are valued most for their Vitamin A content. They are also good sources of Vitamin C and iron. Some are good sources of calcium, and all supply B vitamins. All green leaves contain calcium in rather large amounts, compared to other vegetables, but in some the calcium is in a form that can not be utilized by the body. This is true in spinach, beet leaves and chard. These leaves contain oxalic acid, which makes the calcium unavailable for nutrition. The other nutrients are not affected.

Vitamin A is associated with the color of the leaves. The deeper the green the more Vitamin A is present. Vitamin A is not readily destroyed by cooking. A half-cut serving of cooked "greens" will supply the average person with more than twice his recommended daily allowance of this vitamin.

Vitamin C, on the other hand, is partially destroyed by cooking. A serving of cooked greens will supply less than half the amount of Vitamin C supplied by the same greens, eaten raw.

Make white sauce (four tablespoons butter, four tablespoons flour, one cup milk, seasoning). Add cooled spinach. Add egg yolks. Beat egg whites and fold into mixture. Pour into ungreased  $\frac{1}{2}$  quart baking dish. Bake in pan of hot water (one inch deep) 50 to 60 minutes until puffed and golden brown.

**Let's Freeze Some Greens**

All greens are good for freezing. Select young tender leaves. Wash well. Remove tough stems and im-

perfect leaves. Cut leaves of chard into pieces as desired.

Heat in boiling water for the following periods: beet greens, kale, chard, mustard greens, turnip greens, two minutes; collards, three minutes; spinach, two minutes; very tender leaves,  $\frac{1}{2}$  minutes.

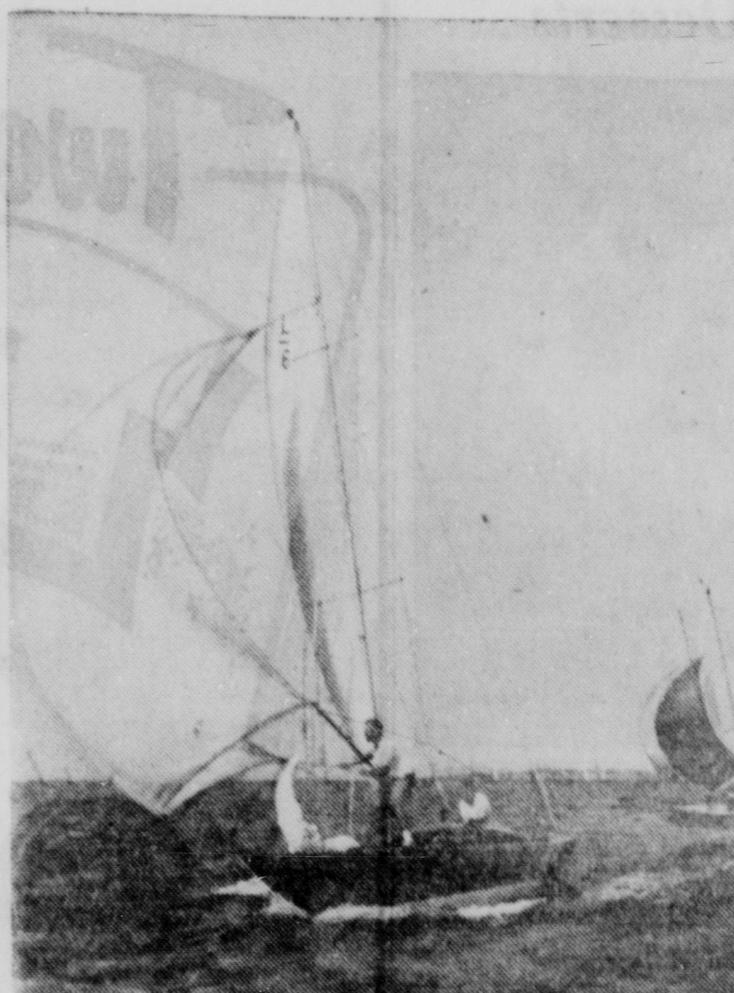

Cool promptly in cold water and drain.

Pack greens into containers, leaving  $\frac{1}{2}$ -inch head space. Seal and freeze.

### Safety in Your Kitchen

Many folks are planning a labor saving convenient kitchen. Had you ever thought about planning for a safer kitchen? Burns are common home accidents. Good kitchen planning cannot prevent burns caused by carelessness, but good kitchen planning can make it easier to be careful. Why not make it a point never to leave long handles extending beyond the range where they can be reached by small children, or bumped into by others with danger of spilling hot liquid or fat on someone. Also, falls account for many home accidents. We can prevent falls by avoiding the necessity of climbing; keep much used articles in your kitchen within easy reach.

Keep a good sturdy stepladder stool handy to use when you need to take something from a high shelf. Do not take a chance by using that old kitchen chair or other make shift ladder.

## Calling the Roll of Strawberry Desserts

By Cecily Brownstone  
Associated Press Food Editor

Call the roll of strawberry desserts! Everyone's waiting to bite into luscious concoctions featuring this favorite berry.

First on the roster, of course, is strawberry shortcake. Want a quick and wonderful way to make it? Add an egg and cream, instead of milk, to biscuit mix for the base. Drop or cut out the dough to make biscuits; slit them as they came out of the oven and slather with butter. Fill with the rosy red berries, sliced and sugared; pile on more of the berries over the top. A puff of whipped cream, a whole berry for a garnish, and there's a strawberry shortcake no mother of yesteryear ever made better.

Next, who wouldn't vote for a strawberry roll? Make the sponge cake base for this dessert just as you would for a jelly roll. Spread with cream cheese whipped fluffy with a little light cream. Spread again with sliced strawberries, roll up and chill. Bring the roll, surrounded with green leaves and whole unhulled berries, to the table. Want your eaters to swoon? Serve with a bowl of extra sweetened sliced berries.

Third, an airy Strawberry Trifle. For this the berries are teamed with sponge - cake layers, soft custard sauce and whipped cream. We're giving you the recipe — a party delight!

### STRAWBERRY TRIFLE

Ingredients: 2 round 8 - inch sponge - cake layers, 1 quart fresh strawberries,  $\frac{1}{2}$  cup sugar,  $\frac{1}{2}$  cups soft custard (see recipe below), 1 cup heavy cream (whipped), 1 tablespoon sugar.

Method: Place a layer of sponge cake in a 2-quart glass bowl about 9 inches in diameter. Wash, hull and slice strawberries. (Save 8 whole berries for garnish.) Sprinkle with  $\frac{1}{2}$  cup sugar and distribute half the berries and 1 cup of the custard over the cake. Top with the second cake layer. Cover with remaining berries. Pour remaining custard over all. Chill overnight or 10 to 12 hours. Top with whipped cream sweetened with the 1 tablespoon sugar just before serving. Garnish with whole berries. To serve, spoon onto dessert plates. Makes 8 servings.

### SOFT CUSTARD

Ingredients: 3 eggs,  $\frac{1}{4}$  cup sugar, 1-1/2 teaspoons salt,  $\frac{1}{4}$  cup cold milk,  $\frac{1}{4}$  cups scalped milk,  $\frac{1}{2}$  teaspoon vanilla.

Method: Beat eggs lightly. Add sugar, salt and cold milk. Gradually stir in hot milk. Cook in a

### Prayer For Oil

BROWNING, Mont. — The Blackfeet Indian Nation held a powwow to pray for an oil strike. It was an affair chiefly for braves but a small, wrinkled woman stole the show. She was 83-year-old Oter Woman Morning Gun, owner of the land on which drilling has started.

Come gusher or dry hole, the impassive, Mrs. Morning Gun had already struck it rich. For the right to drill on her land she had offered \$55,821. She was a shrewd trader, and stands to get 12½ percent royalty if oil is found.

### Fire And Flood

BLOOMFIELD, Ky. — Mr. and Mrs. Charles Brewer's broad-er house caught fire and it appeared that all their 100 chickens perished.

But when the blaze was extinguished and the door opened, out walked one surviving chick. It wobbled to a water trough, fell in and drowned.

Offers Some  
TV Puzzlers  
To the Public

By BOB THOMAS  
HOLLYWOOD (AP)—Sometimes a fellow wonders—

Why TV and radio announcers say, "And now a word from our sponsor," and what follows is many, many words. . . . How some of the most interesting personalities (like Marilyn Monroe, Marlon Brando) can seem dull on "person to person" . . . If the subjects on *This Is Your Life* are always as surprised as they seem when they find out this is their life. . . .

Why Martin and Lewis don't do more takeoffs like last Sunday's on Ed Sullivan (Jerry's version of Marlon Brando also was a classic) . . . Why Jerry doesn't abandon some of his night club mannerisms which are not suitable for family audiences. . . .

How disc jockeys can get away with squeezing three commercials between records . . . Why a truly comic show like *It's a Great Life* with Michael O'Shea, James Dunn and Bill Bishop doesn't get more notice (a better viewing time would help) . . .

Why proprietors of kid shows insist on shouting at their viewers (Is that the only way they can hold attention?) . . . If the forthcoming hour-long shows produced by major studios will be as entertaining and professional as *Disneyland* . . .

How Ed Sullivan justifies advertising stars who make 30-second appearances on his show . . . Why other half-hour dramas don't take chances with offbeat material as *G. E. Theater* does . . . If *Dragonet* doesn't shoot a nut in the arm. . . .

Why Arthur Godfrey has never been as popular on this coast as he has been in the East. . . . If shows like *I Love Lucy* shouldn't advertise "This is a rerun" when old films are used . . . Why Fred Allen has never found a niche as a TV performer. . . .

Just wondering, that's all.

NURSING GRADUATE—Miss Luella Mae Mabry, daughter of Mr. and Mrs. William R. Mabry, 2107 South Missouri, was a member of the graduating class of Kansas City General Hospital No. 1 School of Nursing. The 61st commencement exercises were held Tuesday, May 10. Miss Mabry ranked in the upper 30's of her class. She will remain at General Hospital until Aug. 12, when she plans to return to Sedalia.

Second Story Car

DETROIT (AP)—A new car sailed right through Mrs. Liptack's second story window. It was launched when an auto haulaway truck roared off an expressway exit ramp and crashed into the Liptack home. The driver said his brakes failed. Two other new cars remained on the truck.

## It's Time to Shower the Bride

FOR BRIDAL SHOWER—Double-decker sandwiches garnished with tomato hearts are just right.

By Cecily Brownstone  
Associated Press Food Editor

A shower for a June bride-to-be coming up? Then here's a suggestion that may answer that inevitable question, "What to serve?"

Double-decker sandwiches can be prepared ahead and taste good with tea or coffee. They look pretty, too, frosted with glistening cream cheese and a heart-shaped garnish of fresh red tomato.

And here's an added feature. Guests can take their choice of these double-deckers because there are three varieties. Some of your friends lean toward ham and cheese? Some like eggs, seafood, avocado? These combinations are all here.

Each of these sandwiches is made with three slices of bread—two of white, one of whole-wheat. Good flavor and eye-appeal this way, especially if the bread is thinly sliced and fresh.

For dessert after these sandwiches, serve a big compote of fresh strawberries and pineapple with fancy little frosted cakes and crisp cookies. Then fill up the tea and coffee cups again.

### SWEETHEART DOUBLE-DECKERS

Ingredients: 24 slices enriched white bread, 12 slices whole-wheat bread,  $\frac{1}{4}$  cup butter or margarine (soft), 2 tablespoons mayonnaise or mayonnaise-type salad dressing,  $\frac{1}{2}$  cups Swiss Miss filling, 4 slices boiled ham,  $\frac{1}{4}$  cup Egg-Cheese filling,  $\frac{1}{4}$  cup Avocado-Shrimp filling, 2 (8 ounces each) packages cream cheese, 1-3 cups milk, 2 tomatoes.

Method: Make three kinds of sandwiches, first buttering one side of each slice of bread. For first variety, cover buttered

sides of 4 slices of white bread with Swiss Miss filling, using 3 tablespoons for each slice. Top with 4 slices of whole-wheat bread, buttered side down. Spread each slice of whole-wheat bread with mayonnaise before arranging slices of boiled ham as second filling. Complete with 4 slices of white bread, buttered side down.

For second variety, cover buttered side of 4 slices of white bread with Egg-Crabmeat filling, using 3 tablespoons for each. Top with 4 slices of whole-wheat bread, buttered side down. Spread whole-wheat bread with Swiss Miss filling, using 3 tablespoons for each slice. Complete with 4 slices of white bread, buttered side down.

For third variety, cover buttered sides of 4 slices of white bread with Egg-Cheese filling, using 3 tablespoons for each. Top with 4 slices of whole-wheat bread, buttered side down. Spread whole-wheat bread with Avocado-Shrimp filling, using 3 tablespoons for each slice. Complete with 4 slices of white bread, buttered side down.

Blend cream cheese with milk and spread over top of each double-decker. Trim off crusts.

Cut each double-decker in half, crosswise. To garnish, divide each tomato into 12 wedges; place wedges together, skin side out, to form heart. Makes 12 servings.

### SWISS MISS FILLING

Ingredients: 2 cups (lightly packed) grated Swiss cheese,  $\frac{1}{4}$  cup chopped ripe olives, 1 teaspoon dry mustard,  $\frac{1}{4}$  cup mayonnaise or mayonnaise-type salad dressing.

Method: Mix cheese, olives, mustard and mayonnaise. Makes  $\frac{1}{2}$  cups.

### EGG-CRABMEAT FILLING

Ingredients: 2 hard-cooked eggs (chopped),  $\frac{1}{4}$  cup flaked crabmeat,  $\frac{1}{4}$  teaspoon celery salt, 1

## Starr Stars As New TV Celebrity

NEW YORK (AP)—Television has a new star—in name as well as fact. Her first name is Kay and she spells her last name S-T-A-R-R.

Although a comparative newcomer to TV, Miss Starr has been a queen of phonograph records for seven or eight years, a favorite of disc jockey and juke box fans.

She has done an occasional TV song bit on such shows as *Toast of the Town*, the *Jackie Gleason Show* and *Danny Thomas* program, but has been completely absent from the video screen the past 18 months awaiting a good role.

She had it in Max Liebman's *XIB-TV* musical *Promenade*, Sunday night, and came near to stealing the show from such headliners as Tyrone Power, Janet Blair, Judy Holliday and Herb Shriner.

By next morning, congratulations and offers were pouring in. One result is that Miss Starr probably will make a pilot film in Hollywood shortly for a proposed one-hour network show in the fall.

One reason Kay hasn't been on TV much is that she can afford to wait for what she likes. Her records have been among the best sellers in the business. She commands high fees for personal appearances and, according to her business partner Hal Stanley, recently signed a five-year contract with a Las Vegas night spot for eight weeks a year at \$25,000 a week. That adds up to a million dollars. She also has signed a new phonograph record contract with *RCA-Victor* with a \$60,000 a year guarantee.

tablespoon mayonnaise or mayonnaise-type salad dressing,  $\frac{1}{4}$  teaspoon lemon juice.

Method: Mix eggs, crabmeat, celery salt, mayonnaise and lemon juice. Makes  $\frac{1}{2}$  cup.

### EGG-CHEESE FILLING

Ingredients: 2 large or 3 small hard-cooked eggs (chopped),  $\frac{1}{4}$  cup cream-style cottage cheese,  $\frac{1}{4}$  teaspoon minced onion, 1 teaspoon minced green pepper,  $\frac{1}{4}$  teaspoon salt, paprika, celery seed, pepper. Makes  $\frac{1}{2}$  cup.

Race Around Bay Ends  
With Arrest By Cops

LOUISVILLE, Ky. (AP) — For more than an hour yesterday two boats equipped with outboard motors raced at high speed around Narragansett Bay.

Both were victims of pancreatic cystic fibrosis, the disease which causes the pancreas to function improperly.

This failure, in turn, leads to malnutrition and lower resistance, and the victims succumb to some infection which is the immediate cause of death.

Susan, 23 months old, and Mary Ann, 3, had infections of the lungs.

Dr. Carroll Witten said the disease is unusual in one member of a family but "extremely" rare in two members.

## Vallee May Have His Life Story Filmed

HOLLYWOOD (AP) — Rudy Vallee and for a very good reason — may be the next show biz great to be immortalized in celluloid. Vallee is back in his Hollywood home and he told about his film biography.

But the long-time Vagabond haunts briefly and he was greeting old pals at the Brown Derby. Be-

ed and that pleased me, because

both would go all-out for it.

"Of course, my wife wants me

to play the role. That isn't as ri-

diculous as it seems. I recently

made 'Gentlemen Marry Bru-

nettes' in Europe and I played

myself as I am now and also at

28 years of age. Quite convincing

too.

"But I would prefer an actor

who was a big name at the box

office, say a Tony Curtis. Since I

would be sharing in the profits, I

would rather have a star who

would bring more millions in."

Vallee is here for his Sunday

night CBS radio show, but he's

soon hustling back to New York.

He explained that the advertising

agency prefers to have it origi-

nate from there.

"And we find that there are so

many more celebrities to interview

back there," he added. "When they

go to New York, they expect to be

available for such things; here

they're hard to get.

"It's a shame to leave my fabu-

lous house, but I can't find enough

to keep me busy here. In the East,

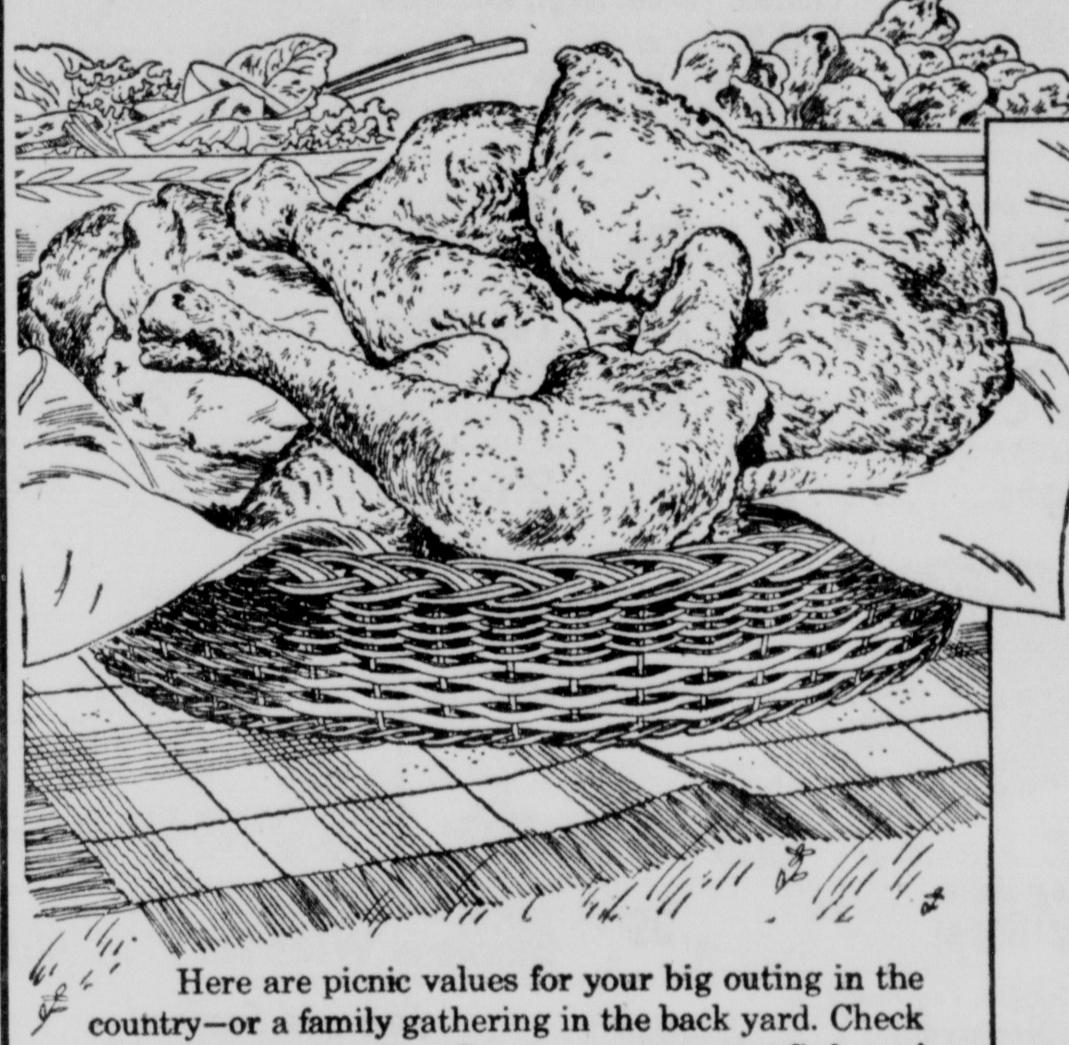

I do radio, some night clubs, a

few weeks of summer theater

and an occasional TV spot."

## Girl Graduate Given Valuable Scholarships For Foreign Studies

PAWTUCKET, R.I. — Jane L. Baltzell, R.I. — Jane L. Baltzell has been offered so many scholarships she can't handle them all.

Jane is 20 and a Phi Beta Kappa. She graduates from Pembroke College next month. She held scholarships throughout her four years there.

Yesterday she was named winner of a Fulbright scholarship for a year of advance study overseas.

Three months ago she was notified she won Rotary Foundation fellowship for a year of study in England.

She turned down both because she had accepted a Marshall fellowship for two years of study at Cambridge (England) University.

Miss Baltzell's father is an official of the Blackstone Valley Gas & Electric Co. She was born in El Paso, Tex.

## Paralyzed By Crash, Completes Education And Plans Marriage

LOUISVILLE, Ky. — Nobody told Charlie it was time to quit. They could have seven years ago.

What chance have you when you become paralyzed from the chest down? How can you go to school when you can't walk?

Charles L. Whitmarch Jr., now 25, answered these problems and many others.

On June 5, he will be graduated with second honors from Speed

Scientific School at the University of Louisville and one month later will start work on a master's degree.

Obviously, Charlie has come a long way since that day in August 1948 when he and a friend were sleeping in a truck near Ocala, Fla.

A passing auto smashed into the truck, knocking it 183 feet and breaking Charlie's back.

Told he would never walk again, Charlie learned to swing himself

along on crutches and to operate an auto with hand controls.

In 1951, he re-entered Speed, where he had completed one year of chemical engineering.

# The Orphans Of Ohio Avenue

Long gone is Clean Up - Paint Up Week. The fanfare preceding its advent was not intended to accomplish a purpose in seven days, but to inspire townspeople to get the matter of spring cleaning under way.

Sedalia responded to the slogan and implemented it with effort as evidenced by the now tidy yards and the hauling away to the dump of 100 or more city truck loads of trash, not to mention independent loads.

Driving around town one may see citizens struggling still with clean-up. Any housewife will acknowledge real clean-up achievement is never attained. Always there can be found something overlooked inside or outside the domestic establishment.

Something overlooked downtown before, during and after clean-up week—and these of all things—are the street corner trash receptacles. Their lustre of newness has long since faded to the elements. They no longer can be referred to with dignity as receptacles — they are cans, trash cans, rusty cans, battered cans.

True they do continue to serve the orphans?

## West Germans Free Men In Free Nations

In ten years a former enemy has become an ally and, it is hoped, a friend. Ten years ago in May 1945 all German land, sea and air forces throughout Europe were unconditionally surrendered. On Thursday, May 5, 1955, Chancellor Konrad Adenauer proclaimed to the West German Bundestag: "We stand as free men among free nations linked in true partnership with the former occupying powers." This was Adenauer's day and the 79 year old statesman must have been greatly moved at the words of Andre Francois-Poncet, French ambassador to Germany before the war and French

utilitarian purpose for which they were intended — offer a haven for unsightly trash, albeit their unsightliness detracts from the tidy appearance the downtown streets should have. This of course is secondary, yet it seems something could or should be done to recondition the cans and make them once again receptacles.

A few years ago the trash depositories were a project of the Sedalia Chamber of Commerce but somewhere along the line when dilapidation set in, no doubt, the cans were supposed to have been adopted by the city. If so then they have been mal-treated.

Whatever is the story about the present parentage of the cans, natural or adopted, the bent and broken tin things are ill-treated orphans. Housewives wouldn't treat their garbage cans that way.

One hesitates to suggest the downtown trash cans be taken away to the dump to join friendly company when they can be dressed up to stand as dignified sentinels discouraging Ohio Avenue litter bugs.

Who will come forward to adopt the orphans?

True they do continue to serve the

high commissioner since that time when he said "We wish West Germany good luck on the road she will follow, mistress from now on of her own destiny."

The raising of the black, red and gold flag of the federal republic made half of Germany a sovereign state and a member of NATO, but the unification of all of Germany remains to be solved. It is within the power of the Soviets to grant unification, but the new Germany will have to scrutinize very carefully any offer from that direction lest by some clever means the new free men be taken into a Communist camp.

### The Washington Merry-Go-Round--

## Ike Definitely Says No To Second Term

By DREW PEARSON

WASHINGTON — The President recently held another of his famous stag dinners for which the guest list is no longer available, but at which he made his views clearer than ever that he did not intend to run for a second term.

Those who attended the dinner came away convinced he meant what he said.

"I've had it," was what one dinner guest quoted him as saying.

He went on to say that no political party should be dependent on one man. He explained that he had never had a vacation in his entire life and was tired. The only let-up he ever had from the stress and strain of military duties was when he was president of Columbia University, and that, he said, was no vacation.

The President also complained about his bursitis, said it was the result of tension and nerves. So he said he felt he deserved a chance to go up to his Gettysburg farm and relax.

The dinner meeting lasted from about 7:30 to 11:45 with a lot of politics discussed. But the politics that directly affected the President seemed quite definite.

### Hoover's Leaks

Herbert Hoover has been sore as blazes at this writer for publishing advance copies of some of his government reorganization reports.

Mr. Hoover has squawked about it vocally and vigorously, though privately. In fact, he's been so irked that he's given orders that all task-force reports on government reorganization be "classified" and he's threatened to prosecute anyone leaking information to Pearson.

It would appear that Mr. Hoover is not too familiar with the law. Because his reports pertain not to military or defense secrets but only to problems of bureaucracy and red tape. And never in the entire history of the United States has it been against the law to publish information pertaining to efficiency in government.

Apparently Mr. Hoover hasn't changed much. When in the White House he also used to be riled

CRAIG (Colo.) EMPIRE-COURIER: GOAT FEATHER CHASERS. In every community there are goat feathers to be chased.

A city park grows up to weeds, with tin cans strewn here and there. No use is made of it, until some person or group with a vision and willingness to chase goat feathers gets busy and does something about it.

A vacant piece of ground along the highway is in similar shape. A group of women get the idea of converting that bit of ground into a wayside park. In doing it they chase a good many goat feathers.

A skating rink is needed, a swimming pool should be built, a fair ground needs improvement. The community needs a new hospital, library, or school building. People pitch in and start doing. They are chasing goat feathers.

Whenever a community ceases to have people who are willing to chase goat feathers, that community starts to stagnate. Nothing new is added to community enterprises.

Thank goodness, Moffat County is blessed with so many good goat feather chasers. They are the people who are willing to stand up and be counted in favor of doing something where there is need.

The goat feather chasers in Craig are busy, and we visualize a whole host of community enterprises followed through to successful conclusion because of them.

Goat feather chasers seldom reap any harvest other than a sense of well being because they have made a contribution to their community. Sometimes they are reviled. Often their work is not recognized or appreciated. They are even accused of doing things because they hope to "get something" out of it.

But in spite of all that, they go on doing things. So here's to the goat feather chasers of the world. May their tribe increase.

## Will Study the Seriousness Of Nurse Shortage, Causes

By ESTHER VAN WAGONER TUTTY

Democrat-Capital

Washington Correspondent

WASHINGTON—The shortage of nurses in Missouri isn't likely to be eased quickly by "the Nurse in the House," Mrs. Frances Bolton, who would set up a "Commission on Nursing Services" to find out the precise seriousness of the lack of nurses and propose some remedies.

The Cleveland Republican already knows some contributing causes: more people go to hospitals; the very young and the very old need additional nursing care; "miracles" in medical progress call for nurses with advanced and specialized training.

Then when a young woman is deciding whether or not to be a modern Nightingale, she faces the prospect of long and irregular hours and low pay as compared to other jobs for which she is qualified. (The 1950 census reports the average professional nurse salary to be \$2,490.) There are no

employment benefits such as vacations with pay.

Congresswoman Bolton didn't introduce her bill until she had considerable support inside and outside Congress.

On the Senate side, an identical bill has been introduced by the ranking GOP on the Labor and Public Welfare Committee, Senator H. Alexander Smith of New Jersey.

The Bureau of the Budget and the Department of Health, Education and Welfare have approved the bill and so has the Board of Trustees of the American Medical Association.

How many nurses are there today? Some 390,000. But that's not enough according to a recent survey of two-thirds of the 7,000 hospitals in the country, which showed 23,000 staff vacancies.

Mrs. Bolton admits there have been other studies on the nursing shortage, but not at the official level carrying the authority to translate findings into action.

## What's Wrong With Vaccine?

By JAMES MARLOW

Associated Press News Analyst

WASHINGTON (AP)—Dr. Leonard Scheele, surgeon general of the U. S. Public Health Service, would just once explain publicly the difficulties with the antipolio vaccine, some of the confusion might be removed.

Scheele and the health service from time to time have issued statements, as confusion piled upon confusion, but no layman could understand what, if anything, was wrong with the vaccine or why the program has ground to a virtual stop.

In the 44 days since the government first okayed use of the vaccine, this has happened:

1. The government stopped use of the vaccine, then cleared some of it but not enough to keep the

inoculation program going very long.

2. At least 92 vaccinated children have come down with polio, 60 of them after receiving vaccine made by the Cutter Laboratories of Berkeley, Calif.

3. Scheele has met repeatedly with groups of advisers—his own specialists, outside polio experts, representatives of the six licensed vaccine manufacturers—and so far the public can see the program is still up in the air.

4. Although the government in April withdrew all Cutter vaccine it has not yet said what if any connection there is between the Cutter vaccine and the polio which developed in 60 children who received it.

5. A split occurred last night between one manufacturer—and perhaps all six of them—and the health service after it laid down new testing standards.

Some dates tell the story:

April 12—The government licensed the distribution of the vaccine.

April 27—After several children vaccinated with the Cutter product came down with polio, the government withdrew all Cutter vaccine.

May 7—After more vaccinated children developed polio, Scheele called a halt to all vaccinations so his experts could check the laboratories of the manufacturers.

May 13—Scheele approved release of some batches—after his men had checked the plant—of vaccine made by Parke, Davis & Co., Detroit.

May 15—Scheele gave similar approval to some batches made by Eli Lilly & Co., Indianapolis.

May 18—The health service delayed the release of vaccine by all other manufacturers for "some days." None of it has been released since.

May 24—The health service said all vaccine "already used or re-cleared" for use had been found safe with the possible exception of two out of the nine batches made by Cutter.

Scheele said there was "strong presumptive" evidence of a connection between the Cutter vaccine and the polio which developed in some children who received it.

He stopped short of saying positively there was a direct connection. When would the government release more vaccine? Scheele was asked that question May 24. He

## Workers Ride On Slab Crashing to Ground

LOUISVILLE, Ky. — Seven workers rode a 45-ton concrete slab to a "forced landing" yesterday and escaped with minor injuries.

The huge section of a stadium floor at the new Kentucky State Fairgrounds cracked and crashed 6 feet to the earth. Two workmen on the ground ran to safety when the cracking began.

One of the seven atop the slab suffered a broken finger and bruises. The others were less painfully injured.

Project engineers could offer no explanation.

## Honor Historian

SAGINAW, Mich. — University of Michigan regents held a special meeting here yesterday to give 88-year-old Fred Dustin a citation.

The citation recognized Dustin's research and writings on Michigan's Indians.

University President Harlan Hatchett told Dustin he was "a scholar and a gentleman."

"I'm just an amateur, I'm no great shakes," said Dustin, who never went to college, nor even to high school.

Mr. and Mrs. Robert Schlotzauer, Rogena and Roleta, Robert and Ronald Lee, Overland Park, Kan., spent Saturday and Sunday with her mother, Mrs. William Stewart. Sunday guests were two sons, Roy and Richard, Kansas City. In the afternoon all visited W. M. Stewart at St. Joseph Hospital.
